

Truman Ticket Rebels Purged By Democrats

States Rights Row Splits Party

Washington, Aug. 24 (P)—The Democratic National Committee today ousted states rights members from Alabama, Louisiana, Mississippi and South Carolina.

As expected, William M. Boyle, Jr., was elected national chairman, succeeding Senator J. Howard McGrath (D-R).

The committee, involved in a hot, long-standing family row over the desertion last year of states rights, shouted its approval of recommendations for punishment handed down by a credentials committee.

The party purge was executed by voice vote.

Then the committee started debating whether to retain Wright Morrow as Texas National Committeeman, as proposed by the credentials committee.

Gov. Thurman Out
When the argument was over, the committee kept Morrow by a voice vote. It tabled a motion to unseat him offered by Byron C. Allen of Minnesota.

The National committee went along with only half of a South Carolina compromise. It made sure in the process that the name of Gov. J. Strom Thurmond, the states rights presidential candidate, came off its membership rolls.

Senator Burnet Maybank was approved in his place. The compromise worked out in South Carolina had called for retention of Mrs. Anne A. Agnew as national committeewoman.

After throwing out states rights and seating Morrow from Texas, the committee filled a Wisconsin vacancy. It elected Carl Thompson of Stoughton to succeed Robert Tehnan, who resigned to accept a federal judgeship.

McGrath was handling the gavel for the last time at national committee session. This afternoon he becomes attorney general.

South Dakota Plains Aflame

Forest Fire Spreads From Black Hills

Rapid City, S. D., Aug. 24 (P)—A raging forest fire, driven by winds up to 40 miles an hour, lashed back at fire fighters early today and swept from the Black Hills into the plains country before the town of Tiford.

Forest rangers at the scene said the blaze was completely out of control. Park Irvine of the Rapid City Journal said it was first believed the fire could be kept in the hills, where it would be relatively harmless.

But late last night the flames leaped across U. S. highways 14 and 16 and into the prairies below. All available men and equipment, Irvine said, were massed between the fire front and Tiford.

The fire was travelling fast through the crowns of trees. The blaze began in the afternoon, and rangers said it apparently had been touched off accidentally. Twelve hours later the fire had eaten over about 2,000 acres, most of it in the Black Hills National Forest.

Rangers said conditions were ideal—for the flames. Recent fire readings have been high, winds were strong and the weather hot and dry, with a high of 105 degrees here yesterday.

TRUCK KILLS CHILD

Muskegon, (P)—A highway maintenance truck killed four-year-old Harold Zahrt here Tuesday. Sheriff Axel Pederson said the child stepped in the path of the truck driven by Wayne Anthony, 26, of Lakewood, Muskegon county.

BODIES SOLVE MYSTERY—A suicide note scrawled by her sex-mad uncle, Arthur Mayer, 30, left, solved the disappearance of Barbara Jean Aberl, 9, (right) missing from her suburban Ecorse home near Detroit since Aug. 12. Mayer's note told of strangling his niece and gave directions for finding the body in a crude marsh-land grave. He shot himself through the head.

Missing Ecorse Girl Strangled; Sex Mad Uncle Kills Himself

Detroit, Aug. 24 (P)—Nine-year-old Barbara Jean Aberl was found strangled to death in a marsh near here last night. A blue jumper was knotted about her throat.

Her n'er-do-well uncle, Arthur Mayer, 30, scrawled a suicide note relating he killed the girl to keep her from telling of his sex advances.

Searchers stumbled on to the little body in a suburban township northwest of here near a mill pond. It was curled in a crude grave just where the sex-crazed uncle said he placed it.

Six hours earlier, the body of Mayer was found in a woods four miles away by Boy Scouts who aided state police in a two-day search.

A rough map sketched by Mayer before he shot himself through the head led searchers to the girl's body.

The hunt began Sunday when it was learned Mayer had not taken the girl to see relatives as he said he would. Barbara Jean was a favorite niece of Mayer, and the girl's family had readily consented when he asked to take her on a visit. Only later when the girl turned up missing did the parents learn from state police Mayer had been investigated previously for making sex advances to young girls.

Mayer's suicide note told of his sexual abnormalities, family troubles and personal debts. He wrote of his distress over being separated from his wife, Mary, and six-year-old son, who live in Johnstown, Pa. Then he told of Barbara:

"I don't know what came over me to take indecent liberties with her. When she said she would tell

Finnish Trade Union Is Split

Reds Refuse To Halt Wildcat Strike

Helsinki, Finland, Aug. 24 (P)—Finland's Central Trade Union federation voted today to kick out four Communist-led unions which refused to stop their wildcat strikes.

Observers predicted the action might split the Finnish trade union movement wide open.

The unions expelled were the transport workers, the union of Forestry Workers and Log Floaters, the Food Industry Workers and the Building Construction Workers.

Meanwhile, observers said they feared the Communists would try to extend their strike offensive to the metal industry. This would endanger Finland's war reparations to Russia. It would affect shipbuilding yards in Turku and Helsinki which are delivering new ships to the USSR.

No one seemed certain how many workers still are on strike. Estimates ranged from 13,000 to more than 30,000. At the peak of the six-day old offensive, an estimated 45,000 were out.

Picnic Smashup Kills Trio From Kalamazoo; Five Others Injured

Kalamazoo, Mich., Aug. 24 (P)—Three Kalamazoo young people were killed and five others were injured early this morning in a two-car smash-up as they were returning from a picnic.

The cars collided in the town of Parchment two miles north of Kalamazoo at approximately 1:45 a.m. One of the cars uprooted a tree after it careened off the road. Killed were Lillian Wright, 19; Jane Dowler, 18, and Don Keeley, 19, all of Kalamazoo.

Atlantic Treaty Launched In White House Ceremony

Texas Lawyer Takes Post In High Tribunal

Two Receive Oath At White House Today

By JACK ADAMS
Washington, Aug. 24 (P)—The nation gets a new supreme court justice and a new attorney general today.

The White House was the scene for the swearing in (2 p. m. EST) of Tom C. Clark, the smiling Texas lawyer who has been attorney general the last four years, as a justice of the supreme court. President Truman headed the list of official witnesses.

The great hall of the department of justice was shined up for another ceremony one hour later. This one was to give the oath of office as attorney general to J. Howard McGrath, one-time U. S. district attorney in Rhode Island, former governor of that state, former solicitor general of the United States and more recently U. S. senator and chairman of the Democratic national committee.

The capital generally agreed that both men face tough jobs. Clark, just one month short of his 50th birthday, goes to the court as its youngest member. He will take the seat left vacant by the death of Justice Frank Murphy, joining a tribunal which has been sharply divided on interpretations of the nation's basic law for the last several years.

Justice Clark may find it necessary to excuse himself from participating in some of the big government cases now headed for the high tribunal, in view of his activities as the government's chief law enforcement officer. In each case it will be up to him alone to decide, on a basis of the extent of active participation in the original proceeding.

Big File Inherited
McGrath, at 45, becomes the 60th attorney general.

He will inherit from his predecessor probably the largest file ever of anti-trust actions, Clark having instituted more than 160 such cases, a record. Among those pending are such major actions as the Chicago suit to break up the Du Pont industrial empire, the action to divorce American Telephone and Telegraph from Western Electric and the move to dissolve the Investment Bankers Association of America.

Outside the anti-trust field, the new attorney general will have the responsibility for carrying forward prosecutions against top Communist party leaders in New York City; the espionage conspirator case against Judith Coplon, justice department employee, and her Russian friend, Valentine A. Gubitchev; the effort to get final deportation orders against a long list of alleged alien Communists; continuing tests of the federal loyalty program; and disposing of millions of dollars of alien property seized during World War II.

**Baseball Bet Racket
Smashed In Boston**
Boston, Aug. 24 (P)—The police racket squad snared two men last night in a raid on what authorities described as a nest of "a well organized country-wide syndicate" handling big bets on major league baseball games.

The raid followed by a few days a disclosure by the New York Post that \$33,000,000 was wagered daily on big league baseball with a total of more than \$5,000,000,000 a season.

Notebooks containing telephone numbers in cities throughout the country and charts giving odds on all starting pitchers were found in the apartment.

**Plans For \$4,000,000
State Office Building
Advanced At Lansing**
Lansing, Aug. 24 (P)—The next legislature will be asked to order the construction of a new, \$4,000,000, eight-story state office building, it appeared today.

A legislative committee indicated it would ask the legislature to authorize a non-profit corporation to be formed and to build the structure with a loan from the \$21,000,000 state employees retirement fund. The money would be paid back from departmental rentals.

The new structure would be in a four-block area back (West) of the capital building.

CRASH KILLS THREE
Jackson, Mich., Aug. 24 (P)—Three persons were killed yesterday in a car accident one mile east of Parma on US-12. Their car went out of control and struck two utility posts. Killed were Walter Behnke, 59, a guard at Southern Michigan prison, his wife, Mabel, and Mrs. Brigid E. Hayes.

Bitterness of the feud apparently has gone too far. It has been marked by border shootings between Yugoslavia and Soviet-controlled conform neighbors, charges and counter-charges of espionage and sabotage.

Since expulsion from the committee today was shifting charges and counter-charges over the operation of the American Legion Children's Billet at Otter Lake in Lapeer county.

The Legion officers, barred from rebutting the charges at a hearing yesterday, issued a blast of statements and were promised a full hearing Sept. 7.

The officers contended that the charges were "old stuff" which had been disproved in 1944 and were the work of disgruntled former employees.

The charges ranged from poor medical care of the children to fraud by the Billet management.

Both sides seemed to agree that children at the Billet generally were well-cared for and well-fed.

One of the main complaints, made by several witnesses, was that children who contracted childhood diseases were not isolated, with the result the diseases spread rapidly through the Billet.

Legion officials said the superintendent was advised by a physician not to isolate such cases but to allow the youngsters to contract the illness and "get them over with."

One of the main critics, Walter H. Scott of Detroit, former chairman of the Legion's Billet committee, testified, however, that in one such case, a child so treated eventually was discovered to have tubercular meningitis. Another witness said the child died outside the Billet in June.

West Germany Picks Premier

Dr. Adenauer Heads New Republic

Bonn, Germany, Aug. 24 (P)—Dr. Konrad Adenauer, president of the parliamentary convention which wrote the new West German Republic's constitution, will become Chancellor (Premier) of the Republic, he said last night.

The 73-year-old Adenauer, chairman of the Christian Democratic party, said party participants in the coalition cabinet have not been selected. Indications are, however, that Adenauer's conservative group will call in the free Democrats and the extreme right wing German party, leaving the Social Democrats outside as the principal opposition.

Dr. Adenauer, a Catholic, was born in Reinheim-on-the-Rhine, May 5, 1876. He received his law degree at the University of Bonn. He was elected Lord Mayor of Cologne in 1917 and held the post for 16 years. He was president of the Prussian State Council for 13 years.

During the Hitler regime, a Gestapo agent was assigned to watch Dr. Adenauer, and in 1944, following the unsuccessful revolt against Hitler, he and his wife were imprisoned. Both finally were released but were required to report to the Gestapo regularly.

**Couple Gets Rid
Of Dream House
Prize For \$1500**
New York, Aug. 24 (P)—A student war veteran and his wife today were rid of the \$15,000 "dream house" that turned into a nightmare for them.

Alfred and Edna Birnbaum won the house—on display in Manhattan—for a 50-cent raffle ticket. But the cost of land, moving the house and installation in a new location loomed too large for them. Meanwhile, they had to pay \$50 daily rentals on the parking lot where the house stood.

They sold the house for \$1,500 to Herbert Bransch, a lawyer, who plans to move it to Port Washington on Long Island.

Clark New Chief
Washington, Aug. 24 (P)—Gen. Mark W. Clark, one of the top generals in the last war, is the new chief of army field forces.

Lt. Gen. Albert C. Wedemeyer, now deputy chief of staff for plans and operations, is going to California to take over the Sixth army.

**Girl Survives
Knifing In Park**
Kentucky Runaway
Left For Dead
Covington, Ky., Aug. 24 (P)—A 14-year-old runaway girl was shot twice, her throat slashed and then left for dead in Devou Park here yesterday.

But, after getting help, she was reported in fair condition at Booth hospital today.

The girl, identified by police as Ruth Turner, daughter of divorced parents, staggered to the home of Mr. and Mrs. Arthur J. Chisenhall, nearby. She was wounded in the right shoulder and head.

Cries of the girl, clad only in a slip and covered with blood, wet leaves and weeds, awakened the family. They took her in and called officers. She told police she had been raped.

Detective John Dedden said Ernest Foutch, 28, arrested on charges of cutting and shooting to kill, admitted the shooting but denied that he had raped the girl.

The detective said the girl related she had run away several days ago and had met Foutch in a park. After playing ping pong, she said, she accepted Foutch's suggestion that she go to his brother's home where she could get a room.

On the way, the girl told police, she was dragged into bushes in the park and her dress ripped off. Then she said she was raped and her throat cut. As she lay still the man covered her with leaves and weeds. But when she moved, thinking he had left, she was shot twice. After the man fled, she dug her way out and went to the Chisenhall home.

**Auto Show In Detroit
Biggest In Country**
Detroit, Aug. 24 (P)—Michigan's first postwar automobile show is expected to be one of the biggest in the nation.

It will be a feature of the Centennial Michigan State Fair Sept. 2-11. James D. Friel, general manager of the fair, said all car manufacturers in the state will take part.

**Defense Pact
Lines U. S. Up
With 11 Nations**
Pledge Meets Soviet
Aggression Threat
Washington, Aug. 24 (P)—The 12-nation Atlantic pact binding North America and Western Europe in a common defense alliance went into force today.

The historic moment came at 11:42 a. m. (EST) when President Truman signed a proclamation declaring the treaty to be in effect.

Top-ranking officials of this country and most of the 11 other pact nations witnessed the signing at a White House ceremony.

Although the alliance was formally formed under the threat of Russian aggression, Mr. Truman said in a statement: "No nation need fear the results of the cooperation of the western powers."

The treaty, signed last April 4, pledges the 12 allies to strike back in the case of an attack against any one of them.

Already representatives of these 12 nations are at work at the state department planning for the first meeting of the council of the Atlantic alliance. That meeting probably will be convened in Washington about the middle of next month.

France Last Of Seven
Ambassador Henri Bonnet of France was called on to deposit the French notice of ratification with the White House as the first step in today's ceremony. That action, as provided in the treaty itself, automatically brings the pact into force.

The effective date for the alliance was worked out in this way: The United States, Canada, Britain, France, The Netherlands, Belgium, and Luxembourg made up the seven countries which began negotiating the pact July 6, 1948, and substantially completed it early this year. The treaty itself provided that it should come into force when all seven had ratified it and France is the last of the seven to take that action.

The total membership of the alliance was raised to 12 in March of this year when five other nations in the Western European Atlantic area accepted invitations to join. Those five were Norway, Italy, Portugal, Iceland and Denmark.

The treaty's action clause—in which the Western Powers state the defensive nature of the compact, provides first that an attack on any one of the members "shall be considered an attack against them all," and then adds:

"X X X consequently they agree that, if such an armed attack occurs, each of them X X X will assist the party or parties so attacked by taking forthwith, individually and in concert with the other parties, such action as it deems necessary, including the use of armed force, to restore and maintain the security of the North Atlantic area."

Great Area Included
The two other major specifications of the treaty call for "self-help and mutual aid" and for the establishment of a council composed of representatives of all 12 nations which shall in turn set up a "defense committee."

Michigan Trooper Back Home After Bosning Jap Cops

Lansing, Aug. 24 (P)—A blunt, smart Michigan policeman who became police administrator of Japan under General MacArthur, came home today to report on the Japanese people under a "democracy."

He is Capt. Harold F. Mulbar, one-time head of the Michigan state police detective bureau and a "lie detector" expert. He went to Japan in 1947 to reorganize the Japanese police system on leave of absence from Michigan.

"I never thought," he said, "that I would organize and supervise the imperial Japanese guard to protect the emperor of Japan and his household."

In his interview, Mulbar said his first, and stunning, assignment, was to recruit 36,000 policemen for a new rural police force in Japan—the largest single police recruiting in history.

Then he directed the training of those 36,000 and 90,000 cops of the old regime.

Taken Army Needed
Mulbar said the Japanese police, once the representatives of the imperial majesty and entitled to kowtowing by all citizens, has been made democratic.

Mulbar declared the Japs are doing an "amazing job" of rebuilding their own country—and "not on our money."

"If any one is the indispensable man today," Mulbar said, "it is Mr. Arthur. His record, compared with that of the rest of the occupied countries, proves it."

He predicted that the United States must keep at least a token army in Japan "for many years" if Russia is not to gobble up the crippled nation. "Communism is the only real menace to Japan today," he said, "and it's a very serious one."

Thursday Mulbar walks into the state police headquarters in East Lansing and asks for his next assignment.

Defense Chief Fires \$35,000

Military Spending Cut Hits Civilians

Washington, Aug. 24 (P)—Secretary of Defense Johnson announced today that 135,000 civilian workers for the armed services will be laid off in his drive to slash military spending.

Navy installations were the hardest hit in the civilian cut. They were ordered to reduce by 76,000, the Army by 41,000 and Air Force 18,000.

This program, going into effect immediately, will result in an estimated saving of \$200,000,000 in the current fiscal year ending next June 30. Then it is calculated to bring a saving of \$500,000,000 a year thereafter.

A total of 50 installations will be closed down. Many will be cut severely.

The savings were worked out by the individual services themselves, the Army, Navy and Air Force.

The Navy shipyard at Long Beach, Calif., was ordered practically closed down to a custodial basis.

Its civilian employment was reduced from 5,800 on July 31, 1949, to a proposed 400.

Brooklyn Naval shipyard's civilian employment—12,225 on July 31—was ordered cut to 3,355.

Wages Take Drop In Copper Mines

Houghton, Mich., Aug. 24 (P)—Wages will drop 15 cents hourly when the Calumet and Hecla Consolidated Copper Co. reopens Sept. 6 after a four-month shutdown. Vice-President A. E. Petermann said yesterday.

Petermann said negotiations for a new wage schedule will start when the price of copper rises to 19½ cents per pound, which he termed the break-even point for the company.

He added that if a government subsidy should become effective, wage rates would be adjusted as of the date benefits accrue to the firm.

CUCUMBERS UNPICKED
Grand Rapids, (P)—Between 200 and 250 acres of cucumbers in the Ionia-Montcalm area may go unharvested. West Michigan Farm Labor Chief H. M. Willis reported today that similar conditions may develop in the Big Rapids, Cadillac, and Manistee areas.

**Body In Ditch Near
Monroe Identified**
Monroe, Mich., Aug. 24 (P)—The body of a woman found slain last week in a Monroe county ditch was identified today as Rose F. Trahan, 47, of Wauregan, Conn.

State police said the Connecticut woman was identified through fingerprints in FBI files.

They were unable to explain immediately her presence in Michigan.

Officers theorized she had been slugged and left to drown in the water-filled culvert.

Three Are Held For Thievery

Duranceau Breaking, Entering Solved

Two minor youths, one from Groos and the other from Marquette, and Ernest Burnette, 29, of Marquette, are being held in connection with the raiding of Duranceau's store in the Flat Rock vicinity on Aug. 17, in the morning.

A cash register containing \$15.04, cigarettes and candy were taken from the store, operated by Miss Julia Duranceau and her brother Charles.

One of the minors was apprehended at his home in Groos and Burnette and the other minor were apprehended in Marquette. The minors have been referred to juvenile authorities at Marquette.

Burnette, who also was involved in a gas station robbery at Marquette, and is implicated in the theft of a truck at Rapid River, will be tried in Marquette.

Officers of the Delta County sheriff's department investigated.

Mary Agnes Faces 15-Year-Old Bauer Girl In West Meet

Chicago, Aug. 24. (P)—A teen ager has never won the coveted women's western amateur golf crown in nearly one half century of competition. Now 15-year-old Marlene Bauer of Los Angeles is aiming to break through the charmed circle.

Marlene played in her first western amateur as a tot of eight in 1941. She wound up in one of the last flights.

Returning to the fast competition last season, she was co-medalist of the meet at San Francisco with 76 but was eliminated in the second round.

The 115-pound tyke has been tabbed the giant killer for the current meet. Not since Patty Berg, at the age of 20, won the western amateur title in 1938, has such a youngster as Marlene come along to toss a serious challenge.

With her father, David Bauer, a professional golfer, trailing her around the Westmoreland course, the honey-blond youngster today will take on veteran Mary Agnes Wall of Menominee, Mich., in the second round feature.

Felton, Detroit, Stops Milwaukee's Sherrer

Detroit, Aug. 24. (P)—Lester Felton, Detroit welterweight, knocked out Jim Sherrer of Milwaukee in the second round of a scheduled 10 round bout here last night.

The fast - stepping Detroitier avenged a defeat suffered at the hand of Sherrer in a Chicago bout.

Felton's knockout punch was a flashing right that caught Sherrer on the jaw. Sherrer went down, but came up on his knees at three. Apparently he was in good enough condition to continue but he still failed to come up when Referee Bob Watson reached 10.

County Schools Census Reveals Increase Of 76

The county school census shows an increase of 76 children of school age this year, it was announced today by Hagle Quarntstrom, county school commissioner. The total census of county school children this year is 4,697, as compared with 4,621 last year.

Escanaba's school census lists 4,000 children of school age and Gladstone's 1,873, bringing the entire county total, including the two cities, to 10,570 children.

By townships, here are the census figures:

	1948	1949
Baldwin Township	232	230
Bark River-Harris	373	405
Harris	426	440
Rapid River Agric.	121	121

In Menominee county, the school census shows a total of 6,326, including 2,694 for the city of Menominee, according to figures released by Ethel A. Schuyler, Menominee county school superintendent.

Hermansville Joins In Rail Protest

Hermansville, Mich.—Irwin L. Sutherland, Andrew Vescolani and Frank J. Rodman have been delegated by the Hermansville Lions club to enter this village protest at a hearing called August 30 at Escanaba by the Michigan Public Service Commission against the proposed discontinuance of the North Western Railroad branch line (Scooter) from Iron River and Escanaba. This is the feeder line which connects daily with the North Western's Streamliner "400" at Powers. This action by Hermansville resulted at their last meeting on August 15th.

In this action, Hermansville joins other communities in Iron and Dickinson counties in the protest. Most communities will send delegates; others have forwarded resolutions.

Junior High Pupils To Get Assignments

Junior high school students will report on Monday, Aug. 29, to receive their home room and locker assignments, Principal Clarence Zerbel announces. The assignment hours will be from 9 to 11:30 a. m. and 1:30 to 4 p. m.

Students living out of the city may report any day next week, however.

Enrollment in the junior high school is 647 this year as compared to 624 in 1948.

The figures by grades follow:

Grade	1949	1948
7th	200	201
8th	181	173
9th	266	250
Total	647	624

Hospital

Caroline Howard, 22, of Manistique, was being treated today in St. Francis hospital for minor injuries sustained when the car she was driving skidded off the pavement and overturned on U.S. 41 in Masonville township. It was reported that she was to be discharged this afternoon to return to Manistique.

Little Fellow Gets Chance At Vandalia Trapshoot Go Today

Vandalia, O., Aug. 24. (P)—The little fellows get their chance today at the Gold Grand American Trapshoot. After two days of championship firing and as a tuneup for the featured handicaps Thursday and Friday, a field of about 900 decides class titles today.

The marksmen will compete in five classes against only the men having comparable averages on registered targets for the year. The winner in each class will pick up about \$400 or \$500 depending on the entry in his division.

Belloise Pits His All Against Sugar Ray In Go Tonight

New York, Aug. 23. (P)—Middleweight contender Steve Belloise pits the power of his mighty right against the all-around brilliance of welterweight champion Ray Robinson in a non-title ten rounder in Yankee stadium tonight.

The fight shapes up as a first class punching party with Belloise set to come roaring out in the hopes of landing an early knockout.

Balding, 30-year-old Steve's chances hinges on his getting in a hard blow quickly. If not he's liable to run out of gas against the clever, stiff-hitting welter boss. No one ever has kayoed Sugar Ray.

Robinson, beaten only once in 99 fights, has been installed a 1 to 3 choice to win. The odds may drop a few points by the time the gladiators climb into the ring at 9 p. m. (EST).

Yesterday Stars

Hitting—Jack Graham, St. Louis Browns, hit his 20th home run with one on for the winning markers as the Browns defeated the Boston Red Sox 5-4.

Pitching—Preacher Roe, Brooklyn Dodgers, working with only two days rest, set down the St. Louis Cardinals, 4-3, on eight hits to keep Dodger flag hopes alive.

Michigan Oil Output Rises

More Gas And Oil Permits Issued

Lansing—The odds on locating a producer in Michigan wildcat oil well drilling in 1948 were one to 13, according to the annual summary of oil and gas field operations just released by the conservation department's geological survey. Oil production increased four per cent while gas production went down 10 per cent compared to 1947.

Of the 312 wildcat wells, 10 tapped new oil fields and nine extended existing oil fields. Five opened new gas fields.

Drilling in both wildcat and proven territory in 1948 totaled 2,120,000 feet of hole, a slight increase over 1947, and at an average depth of 2,216 feet compared to 2,370 feet last year. The lesser depth is accounted for by intensive activity in western and southwestern Michigan where producing depths range from 1,000 to 2,500 feet.

The department issued drilling permits for 918 oil and gas wells more than in any year since 1941. Oil production of 16,871,046 barrels, an increase of four per cent over 1947, ended a five-year period of declining production. Daily average production for the year was 46,222 barrels.

Gas production was 21,369,587 cubic feet, a decrease of 10 per cent over 1947. This is the first time in the history of Michigan's petroleum industry that gas production declined from the preceding year.

The amount of brine produced with the oil in Michigan fields increased in 1948, but operators continued their excellent record by returning 99 per cent of the brine underground.

The Pentwater field in Mason and Oceana counties was the most important of the 1948 discoveries in adding new reserves. Isabella fields, Isabella county, discovered last October, promise development of important new reserves.

Philadelphia (P)—A temperance leader asserted that Americans are spending \$1,004,566 an hour for alcoholic drinks.

Violet T. Black, of Evanston, Ill., told the Woman's Christian Temperance union at its 75th diamond anniversary convention she arrived at this estimate "by dividing the number of hours per year (8,760) into the \$8,800,000 reported by the U. S. department of commerce to have been spent by consumers in this country last year for alcoholic beverages."

Miss Black is treasurer of the WCTU.

She said "this money, wasted for a product which is mankind's greatest enemy, would finance the building of 100 acutely needed homes, costing \$10,000 each, every hour of the day or night."

She concluded: "The total drink bill, however, cannot be estimated without adding a sum equal to that spent for the beverages, to cover the cost of drink-caused crime, insanity, disease, broken homes, poverty, and other human and economic waste."

"Rented the first day" said Smith.

Commercial Fishermen Worried Over Lamprey

Sea lampreys continue to increase in the Great Lakes.

Commercial fishermen in this area are extremely worried over the situation. They have seen what has happened in Lake Huron; now there are signs that history will repeat itself in Lake Michigan.

For decades, the annual harvest of lake trout in Lake Huron averaged one and a half million pounds. In the last decade, production has declined rapidly. In 1948, only 4,900 pounds of trout were caught by commercial fishermen in Lake Huron.

Lake trout production in Lake Michigan averaged over two million pounds annually for years. Last year, the take was down to a half million pounds.

The sea lamprey is blamed by commercial fishermen for it was in Lake Huron where this parasite first attacked the lake trout. Roy Jensen of the Jensen & Jensen Fish company reports that commercial fishermen find about six to 10 lampreys with each lift of their nets. He estimates that 10 per cent of all the fish taken now are marked by lampreys.

War has been declared on the lampreys. The conservation departments of Michigan and Wisconsin have been studying the problem, as has the Fish and Wildlife Service. Specimens of lamprey have been furnished by Escanaba fishermen to scientists. Some were recently sent to Dr. Peter Tack of Michigan State College and the zoology department of Marquette university at Milwaukee.

Scientists have discovered a method of catching the deadly sea lampreys that are killing valuable food and game fish in the Great Lakes, but how to exterminate the larvae of this predator from the Atlantic ocean still is an unsolved problem affecting the future of the Great Lakes fishing investigations.

The lamprey which entered the Great Lakes from the ocean via eastern waterways has a sucker-like attachment on its mouth so it can fasten itself to the side of a trout, bass, herring, or other species and feed on its blood. A fish attacked in this way invariably dies. Then the lamprey leaves its lifeless prey and attacks another living fish.

Trap 25,000 In Michigan
Dr. Van Oosten and his associates learned in the course of their laborious research that a weir equipped with boxlike traps erected at the mouth of a stream up which lampreys travel in order to spawn will catch 'em by the thousands. Such a weir construction at a cost of \$13,000 at the mouth of the Ocqueoc river in Michigan trapped 25,000 adult lampreys this spring, each weighing about 6 ounces. But, as the distinguished Michigan scientist pointed out, a lamprey lives about eight years before it spawns and dies, so waiting until every one grows up makes the weir method of eradication a long and costly process of extermination.

"The larvae of the species," said Dr. Oosten, "stay in a river about three to five years with four years average occupancy. Then they go to the big lake and prey on fish for one to three and a half years. Our problem is to find a way to kill the larvae in the streams."

Need Staff of 20

The Michigan scientist added that enough money to work out a way to eradicate millions of lampreys in the larvae stage is the pressing need of the committee at this time. A staff of at least 20 research men will be required to do this work. The Great Lakes sea lamprey committee has asked congress for \$359,000 so it can continue its fight against the lamprey but to date no sizable sum has been set aside for this purpose.

During the recent fiscal year which ended June 30, 1949, the committee had only \$3,645 for this field of work plus \$13,000 furnished by the U. S. fish and wildlife service for the experimental Ocqueoc river weir. At the same time, Michigan spent \$10,000 on surveys and research in its rivers, Wisconsin appropriated \$5,000 for similar work, and Ontario set aside \$10,000 to study the habits of the lamprey and the scope of its infestation of streams in that province. Illinois recently appropriated \$10,000 to help the fight against the species.

17 Questions Unanswered
In Dr. Van Oosten's recent report on the lamprey situation in the Great Lakes he stressed the fact that 17 pertinent questions involving habits of the species, fish mortalities caused by predators, the rate of increase of lampreys in Lake Superior and other similar factors in the problem remain unanswered and will not be answered until more research men and money are available.

Meantime the scientists who have been on the lamprey battle front for several years point to Lake Huron as being "lost" because the lake trout have just about disappeared from that body

Liquor Cases Heard Here

Two Charged With Selling To Minors

The Michigan Liquor Control Commission, represented by Robert McDonald of Flint, hearing examiner, conducted hearings Tuesday afternoon at the county courthouse to investigate charges of furnishing liquor to minors, placed against Carl G. Sanders, who operates the Friendly Tavern, and Anthony Orzel, proprietor of Sylvan Point.

Two minors are implicated in the Orzel case and four in the Sanders case. Hearing testimony will be reviewed by the state board of liquor control at Lansing, and its decision will be forwarded later to the enforcement office in Escanaba.

Sugar with some of its 10,000 known derivatives is used in more than 80 industries.

of water. Lake Michigan rapidly is becoming an aquatic desert for the lake trout are becoming scarce and commercial fishermen in many towns around the lake, have given up fishing for this species.

Lampreys also are attacking suckers, herring, bass and other species in Lake Michigan. Dr. Van Oosten said that spawning lampreys now come into at least 108 Michigan streams. They cover every major watershed in Michigan, nearly all on Lake Huron and also frequent five Lake Superior tributaries. The species also has become established in two inland Michigan lakes (Burt and Mullet) and also has invaded Charlevoix and Pentwater lakes. They now are close to Chicago, too, because they have been reported from Salt creek, a tributary of the Calumet river.

In addition to being eligible for the grand prize of a complete casting outfit, the first 12 entries in the Escanaba Junior Chamber of Commerce fishing contest at Ludington park Saturday will receive a fish line, Whitney Dixon, chairman, announces.

The first 12 boys or girls who report their catches and officially enter the meet will receive the prizes, he said. The contest opens at sunup and will continue until 4 p. m.

Dr. Zon Will Attend Parley

Pioneer Forester Coming To Chatham

Dr. Raphael Zon, one of the first graduate students of forestry in the United States and who "sold" the Upper Peninsula Development Bureau on the idea of national forests a quarter of a century ago, will be among the many dignitaries attending the U. P. forestry conference to be held in Camp Shaw, Chatham, Sept. 12 and 13.

Dr. Zon was closely associated with the beginning of the conservation movement in the United States when it was initiated by Gifford Pinchot under the administration of President Theodore Roosevelt. For many years he has been a correspondent for outstanding technical magazines and a translator of American and German books into the Russian language.

Dr. Zon was director of the Lake States forest station in St. Paul, Minnesota for 25 years and was one of the first representatives of the U. S. Forest Service to come into Upper Michigan to alert its citizens to the possibilities of establishing national forests in this area.

He attended a similar forestry conference held in Marquette in 1930 and at that time stressed the need of forest research if the life of the Peninsula's woodlands was to be prolonged. Many of the suggestions he advocated are now being followed.

Among the top speakers for the September gathering at Camp Shaw will be Congressman Charles E. Potter, of Michigan's 11th district; George M. Hunt, director of the U. S. forest products laboratory in Madison, Wisconsin, and Dr. R. E. McArdle, assistant chief of the U. S. Forest Service.

Many Forum Letters Are Unacceptable

APPROXIMATELY half of the letters submitted to the Public Forum column of the Daily Press during the past week were not acceptable for publication, for one reason or another.

For that reason, we are emphasizing once again the prevailing rules of the Forum column. We do not publish letters submitted anonymously so do not send unsigned letters. We will publish pen names, at the author's request, and will not divulge the author's name, but this information must be available to us.

Letters dealing in personalities likewise are unacceptable. Several such letters were received during the past week and, of course, were not published.

Poems are not published in the Forum column, even good poetry.

Finally, letters submitted for publication in the Forum column should be brief, with a maximum of 300 words.

Keep your letters coming, within the limitations indicated above.

Propaganda War Gains Momentum

THE propaganda warfare between Russia and Yugoslavia is increasing in tempo, climaxed Monday by a demand from a Communist official in Albania, published in Pravda, for the death of Marshal Tito.

Russia has threatened to take "effective measures" to protect Russian citizens in Yugoslavia. Tito, in turn, has issued sharp statements of defiance, charging the Kremlin with using Russian citizens as spies in Yugoslavia. The notes being exchanged from Belgrade and Moscow are bristling with insults and stern language.

Just what Russia intends to do to subjugate Titoism in Yugoslavia still is uncertain. The threat of war is implied, but whether Russia will dare to move in on Tito with force of arms is doubtful. To do so would serve notice on all countries in Europe that Russia is prepared to take what she wants by force if she cannot gain domination by trickery.

If the Soviet Union elects to invade Yugoslavia, Tito is doomed. The Yugoslav forces could not hold out for long against attacks directed through Albania, Romania, Bulgaria and Hungary, supported by the mighty Russian military machine. Tito is gambling that Russia will not dare to attack with force of arms through fear of unfavorable world opinion and stiffening resistance to Communist pressures in other lands.

Threatened Strike Affects Everyone

ACCORDING to Walter Reuther, president of the UAW-CIO, if a strike develops in the Ford Motor company plants, throwing 106,000 Ford employees out of work plus many thousands of other persons dependent upon the Ford market, the company will have to accept moral and economic responsibility.

This is a statement that is used frequently by labor leaders whenever a strike threatens. Labor leaders never say that the unions are responsible for strikes. The fault always lies with the employers for their refusal to accept union demands.

The Ford Motor company has flatly rejected demands for \$100 a month pensions for employees, company-financed welfare funds and a fourth round wage boost. Instead the company has offered to maintain present wage scales for another year during which time it will be possible to more accurately gauge the economic trend.

The labor dispute developing against the Ford Motor company is not simply a quarrel between the company and the Ford workers. The entire public is involved in this dispute because the settlement may establish the pattern for industry throughout the country. If the solution is to be a fourth round of wage increases, it means a return to the inflationary trends of the early postwar years.

If a strike does develop against Ford, it is extremely likely that such a strike will be a long one. In that event, the forces of deflation will gather acceleration and that, too, vitally affects all of the American people and most of the world, for that matter.

Churchill Gives Warning To Britain

IN one of his recent speeches, Winston Churchill had this to say about the acts of the Labor government in Britain, and the men who head it: "They have squandered the reserves and resources which have been gathered in the past and have darkened and narrowed the future of every man, woman and child in this famous island."

"It is all the more amazing that they should have brought us down like this and given us such hard times during four years when they have not only been eating upon our savings, but have enjoyed the enormous advantage of outside help on a scale

never known in the history of any country in time of peace."

Britain's great wartime premier then observed that the United States and Canada have loaned and given England some \$7,000,000,000, and added: "Our socialist spendthrifts and muddlers have dissipated every overseas asset they could lay their hands on and, in addition, have exacted and extracted from our people a higher rate of taxation than was required at the very height of the war."

It is true that Mr. Churchill spoke at a political meeting, in his capacity as the leader of the opposition. It is also true that Britain's most acute problems stem from forces and events which were beyond the power of any party to prevent or control. But these facts do not in any way undermine the validity of what he said. The fanatic drive toward socialism and regimentation at any cost, coupled with government seizure of such basic enterprises as the coal mines, the electric industry, banking, and the rest, has sapped the energy and the will of the British people, no less than their economic resources. It has almost totally destroyed incentive. It has turned practically everyone into a ward of the state. Only the bureaucrats and politicians can make major decisions.

At other times Mr. Churchill has warned that Britain's present course could end in actual communism. The fact that Mr. Attlee and other British leaders are men of good will must not blind us to that truth. When government takes over all power, all resources, all the instruments that sustain life, the stage is set for the dictator—the man on the white horse. And the police state, backed by the concentration camp, is created.

What will finally happen to once-great, once-free England remains to be seen. In the meantime, we can profit by her tragic example. When we destroy free enterprise and establish socialism, we directly endanger all the other freedoms too.

MOTORIZED BIKES (Marinette Eagle Star)

A motorist sat in his parked car at a Michigan avenue intersection in Menominee a few nights ago and observed that within a period of about 15 minutes, three youths on motorized bicycles sped through the arterial without even slowing down.

What happened in Menominee is happening regularly in Marinette. Youths on motorized bikes and bikes without motors are ignoring arterials and traffic lights and thus jeopardizing not only their own lives but those of motorists and pedestrians in traffic.

Every youth who has a motorized bike should be warned by his parents that the law on arterials and traffic lights applies to him as well as the motorist. The same rule applies to boys and girls with bicycles, though the hazard is more aggravated when a bike is motorized.

THE LAKE AND ADMIRAL BYRD (Milwaukee Journal)

The level of Lake Michigan rose two inches in July over June, according to the United States engineers. It's all to the good. A fairly high lake level is what shippers, commercial fishermen and people along the shoreline want.

But before anyone takes too much satisfaction from it, it should be remembered that Admiral Byrd is planning another trip to the Antarctic. His trip there in the early 1930's coincided with low lake levels.

A native trained fisherman-scientist in Door county explained it this way: "The earl" is balanced very fine on her axle. This Byrd, he upset the balance. The water all run out."

In the interests of maintaining our lake level perhaps someone should organize a compensating expedition to the Arctic to coincide with Admiral Byrd's trek south.

VACATIONLAND (Grand Rapids Press)

If you're bound for a northern Michigan vacation after a lapse of several years, there's a surprise in store for you.

Since the war tourist enterprises have sprung up all over the north. Especially noticeable is the number of spic and span new motels, motor courts and cabins, reflecting the postwar trend toward informal vacationing. There also are some new state parks for campers.

But the popularity of these resort facilities has kept pace with their number and to avoid disappointment it's a good idea to make advance reservations if possible. Especially over weekends and when the weather is hot, "No Vacancy" signs are likely to be numerous.

In 90-degree heat Michigan's cool lakes and streams have an irresistible lure. Observed at one northern lake a few days ago were cars from several distant states which possess well-established reputations of their own as summer vacation spots.

Just get too important in your own way if you want to get in the way of others.

EXTROVERT-INTROVERT

Q. Will you please give a good, clear explanation, in simple language, of extrovert and introvert? We can't make heads or tails out of the dictionary.—B. M.

A. First, the derivations. Extrovert is from extra-, "outside; beyond," plus the Latin vertere, "to turn." Introvert is from intro-, "inwardly; within," plus vertere. Hence, the literal meaning of extrovert is, "to turn outward." Introvert means, "to turn inward."

Now, in psychology and psychiatry, an extrovert is a person with a lively interest in things outside himself. He generally likes people; hence, he makes a good club or lodge member, likes to serve on committees and hold office.

The extrovert is well suited by personality for salesmanship, advertising. He sometimes is an exhibitionist and we find

Latin America Trouble Brews

BY MARQUIS CHILDS

Washington. — Into a conversation at a Washington dinner party the other evening came that now-timeworn phrase, "The Forgotten Man." It drew from a Latin-American diplomat the following comment, spoken with surface humor which concealed his deep feeling.

"The 'Forgotten Man'? Surely you do not have to ask who he is today? He lives south of your border. He is any citizen of any of the American republics long since forgotten by the great power that wicked demagogues in my country sometimes call the Colossus of the North."

This is a feeling that is growing with ever-increasing bitterness throughout Central and South America. It is one reason why the hostile propaganda of Soviet Russia, on the one hand, and Franco Spain, on the other, is finding a more and more sympathetic reception.

Business men from this country trying to do business in Latin-America find it difficult or impossible to get approval from the European Cooperation Administration for purchase of raw materials in the other Americas with ECA dollars. They report that this is true even though the price south of the border may be considerably lower than that of the North American supplier. Here, according to business men, is how the discrimination works.

LATIN AMERICA EXCLUDED

One of the small Central American republics has perhaps two or three cash commodity crops to sell. The dollars the country needs to import a minimum of manufactured goods depend on the sale of those two or three commodities.

But the middleman finds that in many instances he is not even permitted to make a bid on a sale to Europe to be financed by ECA. This is true, it is charged, even though the Central or South American price is considerably lower than the North American price.

In this way, Latin-American countries are being excluded from commodity markets. They find themselves as pinched for dollars and as desperate for essential imports as European nations. This makes for political instability in which appeals of extremists on the right and left have a special force.

Administrator Paul Hoffman of ECA and his able deputy, William C. Foster, in charge in Hoffman's absence on a swing around Europe, are well aware of this situation. Their orders are to make offshore purchases in every instance in which the price is lower than the U. S. price. Under the law authorizing ECA, an exception to this rule is provided when a commodity shall be declared by the department of agriculture to be in surplus. Some commodities—wool, wheat and soybeans among them—are in surplus.

But Hoffman and Foster cannot possibly supervise the actions of their subordinates. For a variety of reasons, these subordinates seem almost invariably to favor commodity suppliers in this country, often regardless of the price differential.

DEPENDS ON CONGRESS

It must always be remembered, of course, that ECA operates with the hot breath of congress on its neck. A tremendous effort was required to knock out the McClellan amendment, which would have compelled ECA to spend up to \$1,600,000,000 for farm products in this country.

Special interest groups are continually on the alert to try to prevent U. S. dollars from going to buy commodities abroad. Hoffman once pointed out 129 such groups, each determined to protect itself from any foreign competition. In every foreign aid bill the special interest groups try to jam as many safeguards as possible, so that foreign nations cannot earn necessary dollars even through such traditional services as shipping.

This gets to the heart of the matter. If the United States insists on going on behaving as though it were still a debtor nation dependent on the production of raw materials, instead of the greatest creditor and manufacturer the world has ever seen, then there will be little hope that the present, lurching unbalance can be corrected.

The situation in Latin-America, in the meantime, is serious. Not only economically but diplomatically, the United States seems to be bent on bungling. In several countries, firm friends of North America have been overthrown by military dictators. There are some who take such a gloomy view that they see in Latin-America "another China."

This may be unnecessarily pessimistic. But the signs of trouble south of the border cannot be casually ignored.

him in athletics, on the stage, in pictures, on the radio and television, etc.

On the other hand, the introvert is concerned chiefly with his own thoughts, emotions, inner conflicts. He usually is quiet, reserved, austere. He doesn't make friends easily, nor does he feel at home in crowds, in civic and fraternal organizations.

He is inclined to brood, and often has some degree of hypochondria (that's a word my assistant slipped in; it means "a morbid condition characterized by anxiety about the health; fancied illness.")

The introvert is inclined toward thoughtful pursuits: the sciences, teaching, philosophy. He usually is not very active physically, and therefore is inclined to be a dreamer. The legendary absent-minded professor is the extreme type of introvert. It should be understood that neither extrovert nor introvert is an uncomplimentary term. Neither term suggests abnormality or perversion of any kind.

Extrovert is pronounced: EKS-troh-vert. Introvert is: IN-truh-vert.

Q. Will you please explain and pronounce the title of H. L. Mencken's new book "Chrestomathy"?—J. R. W.

A. Chrestomathy is from the Greek chrestos, "useful," plus mathein, "to learn." Chrestomathy means, "a collection of selected passages." Mencken's book is a collection of passages from his own writings. It's a great and enjoyable book if you like Mencken.

Somehow We're Sort of Losing Interest in Buying

Hollywood

By Erskine Johnson

Hollywood, (NEA)—Dana Andrews joins in the Hollywood chorus for a new deal on income taxes for actors, who can earn \$250,000 one year, \$10,000 the next and be washed up six months later.

He told me: "It took me nine years to become a star. I've been making a big salary for 10 years but if I had to quit acting today I couldn't afford to send my kids to college. I've been paying about 83 per cent income tax. One year I saved \$20,000. My lawyer said, 'How did you do it?' He was amazed."

"I haven't saved that much since and I think I spend less than any actor in Hollywood."

Hollywood's theory, a sound one, is that income taxes should be pro-rated over a seven-year period, the accepted "life" of a star.

Spike Jones and his musical depreciation crew are ready for television.

But is television ready? "Not yet," said Spike. "I'll wait until I can put on a TV screen what I now put on the stage. Probably on film. Maybe in six months, maybe it will take a year."

But the red-head was bubbling about the new medium, which he figures is his dish. All those noises he puts on records and on the air can become visual gags, too.

Right In Tune

"Can't you just see us in an old beat-up automobile doing an imitation of the Ink Spots? Then the engine explodes and the fenders fall off in tempo?"

Spike has writers and an ex-film director working on TV routines, which are being filed away along with the necessary props and even camera setups. There's a Foreign Legion number—"We Can't Remember What We're Trying to Forget," and four new numbers he'll use on his fall tour—"Wild Bill Hiccup," the "Un-Original Amateur Hour," "Goose to the Ballet House," and "The Sate-cracker Suite."

"But we've got a problem," Spike said. "A closeup of a quartet looks good on a TV screen. The four heads come over fine. But with us it's four guys and EIGHT heads."

Fox will do a sequel to "Letter to Three Wives" under the title, "Here's Addie." Addie was the gal always talked about but never seen. Joan Blondell and her little daughter, Ellen, want to do a stage play together. Telling about his trial, Bob Mitchum leads off with, "Well, the judge was sitting stage right and I came in stage left."

Here's the tipper to all those gags about Bob Hope and Bing Crosby and their ad libbing before the cameras. They pulled this one on Don Hartman when he was writing their "Road" pictures.

Hartman was called to the set to make a minor scene change and Bob and Bing ad libbed a five-minute scene complete with lights and camera. When Hartman screamed that the scene had nothing to do with the story and would ruin the picture, they confessed to the gag.

Hartman said he picked the locales for the "Road" films by throwing a piece of chewing gum at a map. "I can't remember," he said, "whether we ran out of chewing gum or maps."

Trailer Problem

Dear Editor:

I wish to answer the city manager and council. I am a trailer dweller and wish to say that when we bought our trailer there were no places to live. Do people who rent houses, hotel rooms, furnished apartments, cabins, sleeping rooms, etc., pay \$52 a year for that privilege of renting?

We pay rent to a man whom I am sure pays taxes, the same as all real estate owners do in Escanaba. The city manager told me by phone on two occasions that trailers weren't wanted on the city limits. We pay rent, gas taxes, buy auto plates and have drivers' licenses which gives us a right to drive on all public roads and streets, and also bought trailer plates. My husband is a veteran, a local man born and raised in Escanaba. It was stated in the papers that they (meaning trailer tenants) use our streets and schools. So do others who rent houses, etc. We pay rent, spend our money in local independent stores. We are local people who have a large investment in a trailer. They are expensive to buy and we are glad that we could buy a place like a trailer when nothing else was to be had. We were willing to buy a lot and place our trailer on it but the city ruled that out. I will be glad to pay rent to the city for a place in a trailer park but not \$52 a year besides rent.

Trailer Dweller.

Garbage Along Roads

Dear Editor:

I was driving along a highway within the city limits of Escanaba the other day and I was disgusted to see piles of rubbish and garbage tossed near the road.

Escanaba has good garbage pickup service and it sure seems to me that there is no excuse for tossing garbage helter skelter along the highways to encourage flies, rats, etc.

The people who are doing this should be ashamed of themselves. I hope they read this and have a guilty conscience.

Escanaban.

So They Say

An alcoholic is the only person who lives his life backwards. He starts at the top and works down, finally ending up in the gutter.—Ohio State Rep. Clarence L. Wetzel.

A villain is always waiting in the wings as history unfolds upon the stage of the world.—Acting Army Secretary Gordon Gray.

Some critics of the Brannan Plan oppose it because it serves both the farmer and the consumer. In my judgement this is one of its greatest assets. A program that benefits only one group is not workable nor is it desirable.—Ohio Grange Master Joseph W. Fichter.

These recommendations of drastic reforms are opposed by many bureaucratic empire builders. It is only the citizens who can stop such obstructionism.—Former President Herbert Hoover, referring to the Hoover Commission's recommendations for government reorganization.

So long as the danger of aggression exists, it is necessary to think in terms of the forces required to prevent it.—President Truman

The Washington Merry-Go-Round

(Editor's Note—While Drew Pearson is on vacation, the Washington Merry-Go-Round will be written by his old partner, Robert S. Allen.)

BY ROBERT S. ALLEN

Washington.—Congress hasn't heard the last of government reorganization plan No. 1 to set up a department of welfare.

The senate's turndown has not cooled President Truman's determination to put the proposal through. He will make another try to get approval.

The president disclosed this in a talk with Reps. Robert Crosser and Wayne Hays of Ohio. They conferred with him on government reorganization plans.

"As long as government reorganization can be vetoed by either branch of congress," said Hays, "it will be impossible to effect economy in expenditures. It's the old story of lobby pressure. The lobbies go to work behind the scenes and kill these proposals. That happened when Hoover was president and what the senate did on this proposal was more of the same."

"That's true," said Truman, "but they are not scaring me. If the Hoover commission's magnificent report is to mean anything, it will have to be put into effect. I am going to keep on sending plans for that purpose to congress. Whenever one is vetoed, I'll send up a revised plan in its place."

TOUCHY HISTORY

House rules committee consideration of the arms-for-Europe bill unexpectedly touched off a sharp explosion on American history.

Supporting the measure, Rep. Ray Madden, D. Ind., vigorously criticized former President Herbert Hoover for assailing administration spending policy.

"The ex-president was talking out of both sides of his mouth when he said we are spending ourselves into a collectivist state," thundered Madden. "He himself advocated \$30,000,000,000 for defense and foreign aid out a total budget of \$42,000,000,000. He talks economy, but he wouldn't cut a cent of the military and foreign aid expenditures."

"That's an old story," broke in Chairman Adolph Sabath, D. Ill. "I've heard it many times. I remember as far back as the period after World War I, when the same cries were raised by those who fought to keep us out of the League of Nations. If congress had not listened to those men, there might not have been a World War II."

Then, pointing at Rep. John Davis Lodge, R. Conn., Sabath added, "There sits the grandson of the man who led the fight against the league—Senator Henry Cabot Lodge."

For a moment, Lodge sat in stunned silence. Then, white with anger, he jumped to his feet and shouted, "The record will prove who is right."

"I just gave you the record," retorted Sabath.

Duplicate Phone Service To End At Jonesville

Jonesville.—The last instance of duplicate telephone service will pass from the Michigan scene at midnight Saturday, Aug. 27, for the first time in more than half a century.

At that time, properties of the Jonesville Cooperative Telephone Company will be consolidated with those of the Michigan Bell Telephone company in this community. Jonesville is the only exchange in the state where two telephone systems are now in operation.

The dual telephone nuisance sprang up all over the country upon the expiration of Alexander Graham Bell's patents in 1893. The 525 telephone users here will shed no tears at the passing of an era marked by inconvenience and double expense for some users here since 1921. The two systems are not connected except for long distance service. As a result, a number of users, particularly business customers, have had to subscribe to two telephone services.

Realizing the confusion and added expense of dual service, Michigan Bell started negotiations for the consolidation in 1945, offering either to sell its local properties to the Jonesville company or to buy those of the latter. The Public Service Commission gave its approval of the sale two weeks ago.

The consolidation leaves 154 telephone companies in Michigan, including Michigan Bell.

Marta Toren Still Sweet

Hollywood Fails To Spoil Swedish Girl

By ROBERT C. RUARK

New York—These two years and more ago I ran onto a sweet Swede kid named Marta Toren, a long-shanked, coltish lass who had just been imported to be a new Garbo or a new Bergman or a new something.

I may have been the first friend Marta made in America—certainly I was in the first clump. I met her when she was fresh off the airplane—sleazy, dowdy dressed, stuffed to the gills on banana splits, wearing flat-heeled shoes, open-mouthed in awe of New York, speaking a comic Swede accent. Strictly raw material. All she needed was woolen stockings and a shawl over her head.

I wrote a piece about Marta then because underneath the awkwardness there was a lot of stout stuff. If you don't mind a requote, one of the sentences ran: "The odds may be heavily against her success, but yet Marta Toren has more than Garbo possessed when she stepped off the ship."

Always the man to turn a mood into a column, I did some worrying about what would happen to this nice kid when the Hollywood processors got through curving her over, fixing her hair, correcting her accent, designing her clothing, and inventing a suitable past. It was an even bet she'd turn out like all the rest—lah-de-dah accent, upstage air, delusions of Duse.

She's still Sweet

It's a little pleasure to report that my little Swede gal is still as sweet and unmannered today as she was in June of 1947. She is in town now, for the premiere of her newest picture, "Sword in the Desert," which I guess is the first romanticized version of the struggle in Palestine. Marta premieres tonight, and it's a dress-up affair, worthy of a lady who will probably be around as long as Garbo.

My gal Marta has taken it slow and easy in Hollywood. She has performed the modern miracle of continuing to be the same dame who came over on the plane on a long-shot chance—the same girl whose clothes were so bad then that they had to rush her off the aircraft and re-dress her before the publicity photographers popped their flashbulbs.

Her clothes are chic, now, but just as simple. The hair-do is still little-girl—none of this high-piled landscape garden business. The heels are still flat. The manner is still the same—still the pleasant Swede with the stubborn Swede underneath. But no Garbo. No Bergman, just Toren.

No Cheap Publicity

Marta displayed a remarkable set of guts for a scared kid in a strange land. She withstood all the stock Hollywood ideas of remodeling her into a bad carbon of the other two celebrated squealeheads. She wouldn't go for the cheap publicity, the leg art and the rest. She fought with the studio for six months, and won at the end. They showed her into one dog of a picture, then gave her a small shot at a better one, and now have plumped her into an important number with Dana Andrews, who is no bum at the box-office.

About the only publicity I've seen on Toren was as good as you can get—Life's cover. Marta has a remarkable set of eyes—they are long and narrow and startlingly light, so that she looks more oriental than Scandinavian. Her studio hung one of those stock titles on her, "The Eve," which hasn't obscured the fact that the kid can act.

Our Miss Toren has become sophisticated, I suppose, in that now she knows the names of four kinds of alcoholic beverages—dubonnet, scotch, brandy and port. When she first hit New York she drank port before

lunch, because port was the only name she recognized on the wine list. She has met scotch socially, but prefers a mild dubonnet. She is still hungry at all meal times, although she has abandoned banana splits in favor of a slimmer figure.

There is no real point to this piece, apart from a private satisfaction. I thought maybe it would be nice to update one of the few actresses I ever met who was worth writing about, and to say that it is possible for the right kind of gal to undergo the Hollywood treatment without blowing her roof. Call it a fan letter, if you will, to a dame who has spent two years in the movie capital and still owns no mink coat.

Comets got their name from their long wispy or hairy-looking tails since the Latin word for hair is "coma."

Deuces Are Wild; No Canasta Today

By ED CREAUGH
(For Hal Boyle)

New York (AP)—I was going to tell you about how to play canasta, a card game that is having a great vogue among canasta players, but something came up and—

Well, why be coy about it? What came up is that my brand new canasta rule book (price \$1) got ripped down the middle, my wife went to bed with a sick headache, the Larsens don't love us any more, and I've got to buy a television set.

This sorry sequence began at breakfast last Friday.

My wife looked at me over the top of her newspaper, waited for permission to speak, and inquired: "Why don't we learn to play canasta?"

"Why should we?" I asked jovially. My mouth, however, was filled at the time with yogurt (a milk food favored by yogurt eaters) and my wife understood me to say: "Why, certainly."

"All right," she said. "Cards can wait. We'll drop in on the Larsens instead. I know you don't like them but—"

"I don't dislike them," I objected. "It's just that I can't stand them. But they do have a television set. At least I can watch the fights."

He Goes Out
Bill and Edith Larsen practically kissed us.

"Goody," Edith said, "now we can play that new game everybody's talking about—canasta."

And we did—for one solid hour and 42 minutes. That is the others tried to teach me the game while I kept one despairing eye on the silent and dark TV set.

They told me about melding.

So Friday night found me opening the canasta rule book with all the enthusiasm of a boy confronted by "Elementary Algebra" on the first day of school.

Five seconds later I clapped the book shut.

"We can't do it," I said, grinning. "Canasta takes two decks and we've only got that old one we keep around in case a gypsy fortune-teller should drop in."

My wife took it very well. Too well.

"All right," she said. "Cards can wait. We'll drop in on the Larsens instead. I know you don't like them but—"

"I don't dislike them," I objected. "It's just that I can't stand them. But they do have a television set. At least I can watch the fights."

And we did—for one solid hour and 42 minutes. That is the others tried to teach me the game while I kept one despairing eye on the silent and dark TV set.

They told me about melding.

And about wild deuces and jokers. And about "going out" and "going out concealed." It seems there is a difference. And about black threes, which contain more mysteries than Poe found in the Rue Morgue.

"You got the fidgets, pal?" Bill asked finally. "You act even stupider than usual tonight."

I was about to reply cuttingly when I noticed that my fistful of cards included some matching kings, queens and nines.

"Hey," I said, "I can what-dya-call-it. I can meld."

Edith glared. "It's a rule of this game," she informed me chillingly, "that you say, 'partner, may I go out?'"

I looked at my wife. I looked at the TV set. Something inside me snapped.

"Partner," I said, rising, "may I go out?"

And I made the door before she could answer.

Well, the rule book was torn in half when I got home, rather late. And the bottle of headache tablets was missing from the medicine chest so I knew my wife was feeling poorly. I didn't disturb her. I slept on the studio couch.

"I was thinking," I said at breakfast, "that you're right about our needing a television set. I could order it through Bill's firm as a sort of peace offering."

She smiled and then started to laugh and everything was all right. Except that I can't, as I had planned, tell you all about how to play canasta.

Tuna in a school usually are of uniform size, varying not more than five pounds one from the other.

Records show that George Washington bought \$200 worth of ice cream in 1790.

Alcohol Education Lacking In Schools, WCTU Group Told

Philadelphia, (P)—Too many Americans of school age have a false idea of liquor's effect on the human body, the director of the Pennsylvania School of Alcohol studies believes.

Dr. George F. Dunkelberger, former dean of Susquehanna university, told a symposium at the 75th annual convention of the Women's Christian Temperance Union, that "it is quite common to believe alcohol is a stimulant, whereas it actually lets you down, pulls you down and keeps you down."

Such "erroneous notions," Dr. Dunkelberger said, must be corrected through education. Too frequently, however, he added, discussion of the liquor problem is avoided in schools because of "the popularity of drinking and the criticisms to which teachers think they would be subjected."

Total abstinence, the educator said, is the only "safe, sane and sensible program of living for the youth of our nation."

"The excessive drinker," he said, "comes from the moderate drinker. The moderate drinker comes from the occasional or social drinker and the social drinker comes from taking the first drink."

Other speakers today included Dr. Jesse Hays Baird, of San Fran-

cisco, Calif., past moderator of the Presbyterian church in the United States.

Dr. Baird, predicting the imminence of a new and broader fight against alcohol, offered these five suggestions for stepping up the campaign:

1. Never again consider victory against the (liquor) traffic entirely won.

2. An immediate campaign against liquor advertising.

3. Consider it immoral to take a drink or give one to others.

4. The churches are the hope of the war on alcohol.

5. A new and wider crusade against alcohol by the present generation.

Victory for the dry forces in the Sept. 25 referendum on repeal of Oklahoma's 42-year-old constitutional prohibition amendment was predicted by the president of the Oklahoma W. C. T. U., Mrs. Elizabeth House, of Stillwater, Okla., warned, however, against "over-confidence and apathy" by the dries in voting.

Communist Conspiracy Trial Costs Million

New York, (P)—Federal Judge Harold R. Medina Tuesday told jurors in the Communist conspiracy trial: "We are approaching the last stages of the trial."

Now in its seventh month, the trial is one of the longest criminal trials in American history. Attorney General Tom C. Clark has estimated it will cost "roughly \$1,000,000."

Eleven members of the Communist party's American Politburo or national board are being tried for conspiring to organize the party in 1945 to advocate the violent overthrow of the U. S. government.

Bussineau-Meyette

Miss Cecile M. Bussineau, daughter of Mr. and Mrs. Henry Bussineau, Gladstone Route One, became the bride of Albert H. Meyette, of 203 Stephenson avenue, Escanaba, son of Mrs. Rose Meyette, a double ring ceremony performed at Holy Family church in Flat Rock by Father Roland Dion Saturday morning, August 20, at 9 o'clock.

Mrs. Joseph Therrien was organist of the service for which pink and white gladioli were used as altar decorations.

In the bridal party were Shirley Mae Meyette and Mrs. Leonard Goertzen, who were bridesmaids, Sharon Ann Chouinard, flower girl, and Jimmy Chouinard, ring bearer; Leonard Goertzen and George Frasher, the bridegroom's attendants, and Isadore Guenette and Lawrence Joint, ushers.

The bride who was given in marriage by her father wore a white satin gown with an off-the-shoulder lace trimmed yoke and a train and a fingertip veil gathered to a double coronet of lace and she carried pink roses and white gladioli. The bridesmaids wore peach and blue taffeta and carried colonial bouquets and the flower girl wore yellow organza over taffeta and carried a miniature colonial bouquet. The ring bearer who was dressed in white carried the rings on a white satin pillow with white satin streamers.

The bride's mother wore a gray suit dress with pink accessories and the bridegroom's mother, a navy and white ensemble.

A wedding breakfast and a reception at the bride's home followed the ceremony.

The newlyweds will live in Escanaba at 508 South 16th street.

Today's Recipes

The recipe for angel food cake requested by Miss Ruth Lehmann has been received from Mrs. Ben Levinski, 947 Washington avenue, a regular contributor to the department.

Angel Food Cake

Nine egg whites
One teaspoon cream of tartar
One cup sugar
Seven-eighths cup flour
One-eighth teaspoon salt
One teaspoon vanilla
Beat white of eggs to a froth, add cream of tartar and beat until eggs are stiff but not dry. Then gradually add the sugar which has been sifted twice, beating after each addition. Sift flour with salt five times and fold into the mixture. Add vanilla. Bake in an ungreased angel cake pan in a moderate oven, 350 degrees 45 to 50 minutes. Be careful not to jar or disturb while baking.

Remove from oven, turn pan upside down on a wire netting or with a knife handle or some other small article inserted under the edge of the pan to permit steam to escape and let it stand until the cake falls out.

Miss Lehmann's recipes today are for dill pickles and uncooked tomato relish.

Dill Pickles

12 pounds cucumbers
Grape or cabbage leaves

Dill
Four tablespoons mixed spices
Eight and one-half quarts soft water

Two cups salt
Two cups vinegar
One tablespoon powdered alum
Cucumbers four or five inches long are best

Cover bottom of four gallon crock with grape or cabbage leaves. Cover with a layer of dill and one-half the spices and the powdered alum. Rinse the cucumbers and wipe. Then fill crock with cucumbers up to three or four inches from top. Add a layer of dill, spices, and cover with grape leaves or cabbage leaves. Combine water, salt and vinegar and cover the cucumbers. Place over them a plate, weighted down to keep the cucumbers well under the brine at all times. Cover with a clean cloth and keep the pickles in a temperature of from 80 to 85 for approximately 2 weeks until fermentation ceases. Skim the scum off carefully every few days. After fermentation ceases pour melted paraffin over top or the brine or pack into jars.

Uncooked Tomato Relish

Two quarts ripe tomatoes
Three large onions chopped fine
One cup sugar
Four tablespoons salt
One green pepper chopped fine
One cup diced celery
One ounce mustard seed
One pint vinegar
Peel tomatoes and chop fine. Drain, using only the pulp. Add remaining ingredients. Fill jars and seal. Do not use before 5 days.

Working Wife
Now a Part Of
Young Marriage

By RUTH MILLETT

The parents of a girl are highly indignant at the attitude of the young man their daughter wants to marry. He has told her frankly that they can be married as soon as their combined income reaches a certain amount.

The girl's parents think the young man must be something of a "four-flusher" to admit that he expects his wife to help support the marriage until he is able to do it alone. In fact, they are so upset over his attitude they are trying to break up the romance.

But why blame a young man today for assuming that his wife will help earn the living while he is getting a start? That has become the accepted pattern for young marriages.

That pattern for marriage wasn't the idea of American men. It was the young women's own idea—their own solution to the problem of how they could marry young men who might not be able to support them for years. It might not be an ideal arrangement, but it is about as good a solution as there is.

Alternates Are Delay Or Subsidy
What are the alternatives in the case of the young couple mentioned and all the thousands like them?

They could, of course, put off marriage until the young man is fully able to support a wife. But in most cases it is the girl who opposes that plan. Being woman-wise she knows that if the marriage is postponed for several years, some other girl may get the man she wants, leaving her older, sadder and husbandless.

There is also the possibility of the parents of both the young man and the girl helping to support the marriage. But even if the parents can afford to subsidize the marriage, that is a far from perfect solution. It robs the young people of the feeling of accomplishment that comes from being entirely on their own. And it's a rare parent, indeed, who can contribute money to the support of a child's marriage, without being tempted to contribute advice, as well.

So if they want to marry early all that's left is for both to work until the husband is making enough to get along without the wife's help.

That arrangement has some drawbacks, too. But thousands of young couples have already proved they aren't insurmountable.

Proper ironing can mean the difference between smart and dowdy-looking cottons. Light-colored cottons should be ironed right side out; dark colors should be ironed on the wrong side to prevent a shine.

Doll Gifts To Europe Children Complicated

Pittsburgh, Penn., (AP) — Peggy Reiley has a packing problem on her hands now with Europe's toyless children the eventual beneficiaries of her efforts.

Miss Reiley, women's editor of the Somerset (Pa.) American, recently launched a campaign to collect dolls to be sent abroad. Nearly 1,500 were donated in short order, including 200 shipped to Pittsburgh by Margaret Wooding of St. Catharines, Ontario.

The 29-year-old newspaper woman was informed by customs officials she would have to pay \$14.60 duty on the Canadian dolls.

Miss Wooding said she had been assured the dolls would be shipped duty free and Miss Reiley said she wouldn't pay the money because of the principle involved.

The Somerset editor had a verbal tussle with Mrs. Elaine V. Beading, customs collector, whom she said greeted her with the comment "I'm glad you finally came to us instead of going to the newspapers."

That situation was ironed out when Mrs. Beading informed reporters she wasn't "mad" at them although earlier she had shoved from her office a girl reporter who had accompanied Miss Reiley.

Then Senator Edward Martin (R-Pa.) announced in Washington he had been told the dolls could go through duty free if the donor guaranteed not to sell them in the United States.

That indicated at least a partial victory for Miss Reiley—but one little matter remained. Customs officials said the Canadian dolls must stay in the Pittsburgh cus-

"THERE'S NO BETTER STOMACH MEDICINE THAN O-JIB-WA"

— John Johnson —

Mr. John Johnson writes from Midland, Michigan, that he suffered continually with gas and indigestion, and was so weak, nervous and run down that life was miserable.

The fast pace of modern living puts a continual strain on our nerves and digestive organs. Few people today escape the miseries of gas, indigestion, heartburn, bloating, nervousness and other stomach disorders. For over 35 years, O-JIB-WA BITTERS has helped thousands of people who have suffered with these conditions. The following testimonial of Mr. John Johnson of 346 Oak Street, Midland, is typical and is offered as convincing proof that O-JIB-WA BITTERS is worth your trial if you are suffering from stomach distress.

Everything Turned to Gas

"I have suffered with stomach distress for quite some time, and although I found medicines that brought temporary relief, it was not until I read about O-JIB-WA BITTERS in the local paper, and had tried it, that I realized that O-JIB-WA was the best I had ever taken. Before taking this medicine, everything I ate turned to gas, even a glass of water formed gas on my stomach and I belched continually. At times it was so bad that it caused pressure on my lungs and made me short of breath, and my heart would just pound. I

have always been an active man, but this stomach trouble and gas really got me down, and I found myself always tired and weak. Several times I had to grab a hold of something to keep from falling. My nerves and kidneys were also weak, and very seldom did I get a real good night's sleep."

Results in Just 5 Days

"As bad as I was, O-JIB-WA BITTERS took effect in just 5 days, and now two weeks later, I can eat anything and everything without the slightest distress from gas and indigestion. I now sleep better and feel wide awake and full of pep. My kidneys are improved and in spite of being over 65 years old, I feel better than I have in years. I really was in bad shape before I tried this wonderful medicine, and because of what it has done for me, I highly recommend O-JIB-WA BITTERS. I don't think anybody can take anything better for stomach trouble."

Strike at the Cause

O-JIB-WA INDIAN BITTERS is an all-powerful medicine which acts to stimulate the digestive system (stomach, liver) to normal, thus overcoming gas, indigestion and heartburn. O-JIB-Wa acts to clear the blood of poisons and toxic waste that foster dizzy spells, headaches and rheumatism. O-JIB-Wa Bitters strengthens weak, sluggish kidneys to stop backaches, night urging and restless nights. Yes, O-JIB-Wa is truly an amazing medicine, and will probably do more for you than anything that you have ever tried, so why not get a bottle today and give it a chance to help you.

O-JIB-WA IS NOT EXPENSIVE! In fact, it is very reasonable and within the reach of all. Available in three economical sizes for your convenience and sold by:

ORDINANCE NO. 196
MUNICIPAL WASTE

AN ORDINANCE TO REGULATE THE HANDLING, STORAGE AND COLLECTION OF MUNICIPAL WASTE, LITTER AND OTHER WASTE MATERIALS; TO PROVIDE A PENALTY FOR VIOLATION THEREOF; AND TO REPEAL ALL ORDINANCES OR PARTS OF ORDINANCES CONTRAVENING THE PROVISIONS OF THIS ORDINANCE.

The City of Escanaba ordains:

CHAPTER I

PURPOSE AND INTENT

SECTION 101. PURPOSE AND INTENT. It is the intent of the City Council that this ordinance be liberally construed for the purpose of providing a sanitary and satisfactory method of preparation, collection and disposal of municipal wastes, and the maintenance of public and private property in a clean, orderly and sanitary condition, for the peace, health and safety of the community. The Manager is hereby authorized to make such rules and regulations as may be necessary to carry out this intent, provided, however, that such rules are not in direct conflict with this or other ordinances of the city.

SECTION 102. SUPERVISION. The collection and removal of waste shall be under the supervision of the Director of Public Works.

SECTION 103. ENFORCEMENT. It shall be the duty of the Police Department, through its proper officials and agents, to enforce the provisions of this ordinance.

CHAPTER II

DEFINITIONS

SECTION 201. MUNICIPAL WASTES. Municipal waste or wastes consist of certain discarded products incident to housekeeping and commercial enterprises, as further defined under the sections pertaining to garbage and rubbish.

SECTION 202. CLASSIFICATION. Municipal waste shall be classified as domestic waste or commercial waste.

SECTION 203. DOMESTIC WASTE. Domestic waste is the waste material resulting from the usual routine of housekeeping and includes, garbage, rubbish and ashes.

SECTION 204. COMMERCIAL WASTE. Commercial waste is the miscellaneous waste material resulting from operation of business enterprises, and includes garbage, rubbish and ashes from offices and stores or the like.

SECTION 205. GARBAGE. Garbage is all waste, animal, fish, fowl, fruit or vegetable matter, fit for the use, preparation and storage of food for human consumption. It includes spoiled food, but excludes food in containers of non-burnable nature.

SECTION 206. RUBBISH. Rubbish is the miscellaneous waste material resulting from housekeeping and ordinary mercantile enterprises, and includes, packing, waste, tin cans, bottles, metals, rubber, etc.

SECTION 207. BURNABLE RUBBISH. Burnable rubbish consists of domestic or commercial waste substances capable of burning or being incinerated without the use of auxiliary fuel, including paper, rags, excelsior, wood, bedding, furniture, straw, leather, automobile tires, boxes, barrels, etc.

SECTION 208. NON-BURNABLE RUBBISH. Non-burnable rubbish is waste material of domestic or commercial origin, as above defined, incapable of being burned or incinerated. It includes, but is not limited to, metal, glass, plastic, rubber, etc.

SECTION 209. CONSTRUCTION WASTE. Waste from building construction, alteration or repair, and dirt from excavation, and unusual or special manufacturing or trade wastes are not classified as domestic waste. This type of waste will not be collected without charge, but shall be subject to the collection charges made for extra service.

SECTION 210. DEPARTMENT. Department means the Department of Public Works of the City of Escanaba.

SECTION 211. DIRECTOR. Director means the Director of Public Works, or City Engineer.

SECTION 212. MANAGER. Manager means the Manager of the City of Escanaba.

SECTION 213. SEPARATION AND DISPOSAL. Municipal waste materials shall be collected by the Department if separated as to (1) burnable and (2) non-burnable materials, provided that such materials be stored in separate receptacles, as hereinafter described. Garbage and burnable rubbish may be placed in the same or in separate receptacles.

SECTION 214. GARBAGE-DOMESTIC. All garbage shall be drained of all free liquid. The garbage shall be wrapped in several thicknesses of paper.

SECTION 215. GARBAGE-COMMERCIAL. Garbage from hotels, clubs, restaurants, institutions and other establishments for group eating, other than private residences, need not be wrapped. Garbage resulting from handling, preparation or distribution of food and food products for consumption off the premises, from such establishments as markets, commission houses, grocery stores, fruit and vegetable stands, bakeries, canneries, butcher shops and similar establishments need not be wrapped. Such unwrapped garbage and waste shall be collected by the Department, under such rules and regulations as the Manager shall from time to time establish. Unwrapped garbage of a liquid or semi-liquid nature will not be collected whether in containers or not.

SECTION 216. BURNABLE RUBBISH. Burnable rubbish if separated from garbage shall be placed in a container or securely tied in bundles so that it cannot readily be blown about or scattered.

SECTION 217. NON-BURNABLE RUBBISH. Non-burnable rubbish shall be placed in separate receptacles unmixed with other waste.

SECTION 218. SMALL DEAD ANIMALS. Small dead animals will be collected without charge upon notification to the Department.

SECTION 219. ANIMAL AND FOWL MANURE. Animal and fowl manure from other than private residences, considered as commercial rubbish and after due notice, the Department shall be responsible for its collection and disposal on the terms and conditions herein provided for commercial waste.

SECTION 220. BULK RUBBISH. Rubbish that is larger than can be contained in receptacles shall be securely tied in compact bundles, not to exceed thirty (30) pounds in weight, and placed in a location convenient for collection. Parts of trees shall not exceed three (3) feet in length, and 1 1/2 inch in diameter and shall not be placed in containers.

SECTION 221. RECEPTACLES. Receptacles that are badly broken or otherwise fail to meet the requirements of this ordinance, and are classified as rubbish and, after due notice to the owner, may be collected as rubbish by the Department.

SECTION 222. PORTABLE RECEPTACLES FOR GARBAGE. Portable receptacles for garbage shall be adequate in size and number to hold two weeks' accumulation, and shall have a capacity of not less than sixteen (16) gallons, except where special permit by the Director is issued for a small receptacle. The receptacle shall be of

Michigan Happenings In Washington

By ESTHER TUFTY

Mounting construction costs hit everywhere.

Only a few new rivers and harbors projects (30 percent of the total) are in the 1949 recommendations of the Public Works Committee to be proposed to the House on Monday.

"So great are today's prices of material and labor that 70 percent goes to raise ceilings on already authorized improvements in rivers, harbors and flood control," said George Dondero, ranking GOP member of the committee.

In his forthcoming speech, the Royal Oak Republican will say "of the total of \$1,113,606,170 to be authorized to the Corps of Engineers, some \$785,006,000 is for additional work on projects already approved."

Michigan is one of 24 states "on the list."

Three projects are proposed: the deepening of the Manistiquette harbor; the Grand Marais harbor on south shore of Lake Superior which is so choked up that commercial fishermen are handicapped; and the widening and deepening of the channel at Trenton, opposite Grosse Isle, where most of the coal comes in.

Commenting on the cost, economy-minded Congressman Dondero said the bill had been trimmed almost in half and recalled that last year (when he was chairman of the committee) only emergency projects were authorized upon report of Army Engineers that enough authorizations existed to keep them busy.

Michigan, on the Great Lakes with its 400 harbors, is aware of the importance of continuing improvements and developments. Said Dondero, "The importance of water-borne commerce to our domestic economy is demonstrated by the fact that in 1947 we reached a record all-time total of shipping (760 million tons), an increase of 100 million over the previous record of 1921."

Dondero will leave for Michigan after the debate on the Rivers and Harbors bill.

If Hoover reorganization goes through, this may be the last Rivers and Harbors bill to be carried out by the Army Engineers under direct accountability to the Congress. If the change would put the engineers in the Department of Interior, it would not be popular with many Republicans, including Dondero, who see some socialistic tendencies in certain officials. Personally, this is one phase of the Hoover reorganization distasteful to him.

Michigan's Finnish-American communities may soon have a chance to entertain some "visiting diplomacy."

Dr. Kaale Jutila, Finnish Minister to the United States, attending the "Finnish weekend" in St. Paul, then, with his wife and daughter, he will drive northward to visit Finnish American localities in Minnesota and Michigan. Two proposed stops are Marquette—where the Minister was once snow bound for 6 days back in the '30s, during a concert tour of the

ment not to exceed three months, or by both such fine and imprisonment.

**CHAPTER IX
REPEAL**

SECTION 901. OTHER ORDINANCES. All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed.

**CHAPTER X
SAVING CLAUSE**

SECTION 1001. VALIDITY. If any provision of this ordinance, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional.

**CHAPTER XI
EFFECTIVE DATE**

SECTION 1101. EFFECTIVE DATE. This ordinance shall be in full force and effect ten days after its publication.

T-B In State Loses Ground

Down To 9th Place
As Cause Of Death

Tuberculosis in Michigan continues to lose ground in one of the major public health advances in the state's history. Dr. John A. Cowan, director of the division of tuberculosis and venereal disease control, said today.

The disease which took the lives of 104 persons in every 100,000 of the state's population in 1900, took the lives of only 25 per 100,000 population in 1948. The disease has been pushed from second to ninth cause of death in the state in the past half century.

Credit for victories in the battle, most of which have occurred in the past three decades, should probably be given to improved methods of treatment which made huge onslaughts on the disease in the 1920 and 1930's and to new "wonder" drugs recently put in use; to better casefinding including the mobile chest x-ray units of the Michigan Department of Health; federally purchased units for x-ray of persons entering general hospitals and x-ray services of industries and other organizations; as well as to prompt hospitalization made possible by better casefinding. Other considerable factors are the state aid to counties for hospitalization of the tuberculosis, and the work of state and county tuberculosis associations.

Michigan now stands seventeenth among the 48 states with its death rate of 25.2, and its rate compares favorably with the national rate of 29.8.

Dr. Cowan pointed out that while at the turn of the century in Michigan "Consumption" struck down frail young women and children in their school years, tuberculosis is now taking on an entirely different aspect. Almost two-thirds of the 1948 deaths from the disease were among men and more than two-thirds of the deaths were of people over 40 years of age.

Further advances against the disease will be made through increased casefinding among Michigan people who are in the last half of their "three score and ten," Dr. Cowan said.

'Dream House' White Elephant

New York Prize Home
Offered For 50c

New York, N. Y., (AP) — Add housing problems:

A two-story "dream house" exhibited in the West 52nd street night club belt overshadowed by the towers of Rockefeller center, was won in a drawing three weeks ago by a student veterans' wife.

She and her husband haven't been able to figure out a way to use the six-room prefabricated house. And they fear notice from the U. S. Internal Revenue department that they'll have to pay taxes on the value, \$15,000.

So they announced that they would be glad to give back the house to the American Women's Voluntary Services in return for the 50 cents paid for the winning ticket.

The chief problem is finding a place to move the house from a parking lot at 52nd street and the avenue of the Americas (Sixth Avenue).

Mrs. Edna Birnbaum, an assistant supervisor of nurses at a hospital, won the house. She and her husband, Alfred, 30, had visions of a better life.

But their joy soon was ruined by the prospects of the costs of collapsing, moving, re-erecting and connecting the house, plus parking lot fees of \$50 a day during the delay, and the income tax liability.

The Birnbaums offered unsuccessfully to give the house back to the American Women's Voluntary Services for \$3,000.

Then the "lucky" couple tried to sell the house, but prospective purchasers shied away when they learned the costs ahead.

New Vitamin Factor In Yeast Discovered

Cambridge, England — A new vitamin factor has been isolated from yeast by cooperative efforts of scientists in research laboratories of Sharp and Dohme, Philadelphia, and Merck and Co., Rahway, N. J. The vitamin called biocytin, was announced by Dr. Lemuel D. Wright of Sharp and Dohme at the First International Congress of Biochemistry here.

No medical use for the new vitamin factor is known yet, Dr. Wright pointed out, but clinical studies to determine its role in human metabolism are now under way.

Biocytin occurs in nature only in infinitesimal amounts. Yeast extract, with a concentration of about one part of biocytin per million of dry matter, was selected for the isolation work.

Mr. and Mrs. Edward Joque, Mr. and Mrs. Fred Baude and son, and Mrs. Lee Lester. Among those attending Sunday were Mr. and Mrs. Joseph Hermes, Mr. and Mrs. Stanley Joque, daughter Barbara, Mrs. Joseph Ouradnik, daughters Marie and Jean and son Joseph.

Mr. and Mrs. Delor Beaudry of Manistique were guests at the Clyde Heafield home Saturday.

Jackie Joque is spending two weeks at the home of his uncle, Percy Joque of Escanaba.

SMOKE KILLS BABY

Flint (AP)—Three-year-old Elizabeth Sokolowski died Monday night when a flash fire started in the kitchen of her home. The child dashed from the kitchen to a bedroom, where, firemen said, smoke and heat killed her. Two firemen were overcome by smoke when they went into the bedroom.

Eager Beaver

Private Orville A. Romer, of Company D was given prominent mention of the division's camp bulletin. The incident is recorded as follows:

Pvt. Orville A. Romer is the wonder man of Co. D, 107th Engr, newest unit in the battalion. It seems Pvt. Romer had left Manistique to go to Flint to seek employment. As no word was heard from Romer the CO assumed he wasn't coming to camp, so they left Manistique without him. As the convoy approached Camp Grayling they noticed a forlorn looking figure standing at the intersection of Highways 27 and 72—you guessed it, it was Romer. He had hitchhiked from Flint and had been waiting for hours for the unit to arrive.

Collection Of Garbage May Be Subject To Charge

The city's policy of collecting garbage without charge, may be changed if a proposed ordinance making garbage collection subject to a nominal charge, is passed by the city council.

At Monday evening's meeting of the council, it was revealed that this service is an expensive item to the city and that certain business places are taking undue advantage of it. Should a charge for the service be permitted places where the amount of garbage and rubbish to be hauled is heavy, will be required to pay more than private residences.

Another clause in the ordinance will limit the capacity of the garbage cans, the opinion being expressed at the meeting that collectors should not be required to carry and lift unreasonably heavy cans.

A committee, consisting of the mayor, city attorney and city manager, was appointed to draw up the ordinance for submission at the next regular meeting.

Ask Highway Dept To Resurface Part Of City Streets

Resurfacing with a bituminous coating those portions of Elk, River and Deer streets traversed by state highways, is being requested of the state highway department.

The request is being made in the form of a resolution passed at Monday evening's meeting of the council in which the city agrees to bear the expense of resurfacing the parking lanes while the state highway department the rest.

Company D Had Fine Experience At Camp Grayling

Company D, of the 107th Engineers, the Manistique unit of the Michigan National Guard, has returned home after a two weeks' encampment at Camp Grayling.

Captain E. J. Doyle, reporting for the men, states that it was a fine experience for the men and that they gave a good account of themselves.

Much of the time of the company was spent constructing fixed bridges out of native timber. There were many members of the local unit who were familiar with adapting green timber to the builder's use.

There was ample time for diversion. Regimental bands pepped, things up. There were movies and other entertainment. The food was excellent.

Company D was one of the last to return and some members remained behind to turn in tents and other equipment.

Prepare Lake In Seney Township For Brook Trout

James A. Scully, Regional Fisheries Supervisor, Department of Conservation, Marquette, reports that lake and stream improvement crews recently poisoned out Dutch Fred Lake in Schoolcraft county, Section 18, T 47 N, R 13 W, in northern Seney township. This was done in preparing the lake for brook trout plantings this fall when the season is closed, and the water is cooler. This lake is of about 25 acres in size. Many small perch were the only fish found in this lake.

Holland Lake in Luce county, Section 27, T 49 N, R 11 W, of approximately 5 acres, was also poisoned out. Mostly small perch inhabited this lake, also. This lake will also be restocked with brook trout.

Geraldine Girard Becomes Bride Of Thomas J. Gerovac

Miss Geraldine Trace Girard and Thomas Joseph Gerovac spoke their marriage vows at a double ring ceremony performed by Rev. Fr. Matt LaViolette at a 9 o'clock nuptial mass on Saturday August 20 in All Saints Catholic church. The bride is the daughter of Mr. and Mrs. William F. Girard, 1607 Michigan avenue and the groom is the son of Mr. and Mrs. Tom Gerovac of Marenisco, Michigan.

Cut flowers in pastel hues adorned the church altars for the ceremony. During the Offertory Armour Roberts sang "Ave Maria" and as the bridal party was leaving the church, Armour Roberts and Dale Tienert, Organist, sang "On This Day O Beautiful Mother."

White satin fashioned the bride's gown, which was styled with an illusion neckline, fitted bodice and long sleeves which came to points over the wrists. The full skirt ended in a train. Her fingertip veil of illusion was caught to a heart shaped crown of seed pearls and she carried an all white bouquet. Her only jewelry was a single strand of pearls centered with rhinestones.

Mrs. Edmund Waeghe, sister of the bride, was maid of honor. She wore a pale blue organdy gown with an illusion neckline and a fitted bodice. Her head piece was a cluster of flowers to match the blue of her gown and she carried a colonial bouquet of flowers. Miss Jane Turnell and Miss Betty Sigman, friends of the bride, were bridesmaids. Miss Turnell's gown was pale pink organdy and Miss Sigman's gown was pale green organdy fashioned like that of the maid of honor. They carried colonial bouquets.

Kathryn Anne Whitburn, niece of the bride and Judith Cunningham, friend of the bride were flower girls. Kathryn Anne's dress was of pale blue organdy and Judith's was pale pink organdy.

William Smolich, friend of the groom was best man and ushering were John Evanoff and George Gerovac. The latter, a brother of the groom.

Mrs. Girard chose a navy blue floral print dress with white accessories complimented by a pink corsage. Mrs. Gerovac was attired in a navy blue dress with white accessories and a white shoulder corsage.

Following the ceremony, a wedding breakfast was served at the bride's home for the bridal party and later in the day a wedding dinner for the bridal party and immediate families was served at the Midway. An all white cake topped by a miniature bride and groom centered the table. A reception from 5 until 9 o'clock was held at the Midway, with over one hundred and fifty guests attending.

For their wedding trip to an undisclosed destination, the bride

Pennant Talk Blooms Again In Brooklyn

Preacher Roe Fans Flag Flames

By the Associated Press
Like the tree, pennant talk is blooming in Brooklyn once again. Preacher Roe, slim 31-year-old left-hander of the Dodgers, is responsible for the fanning of the Dodger pennant flames.
The Dodger outlook was gloomy until Joe, working with only two days' rest, beat the league-leading St. Louis Cardinals, 4-3, at Ebbets field last night in the second half of a day-night doubleheader.
Stan Musial and associates took the afternoon game, 5-3, to move three games ahead of the Brooks, extend a Brooklyn losing streak to four games and bring the undertaker to the door.
Roe, who usually receives from six to seven days' rest between starts, was thrown into the breach by a desperate Burt Shotton and he came through brilliantly. Failure would have dumped the Brooks four games off the pace of the snarling Misourians.

Rocky Start
Old Preach, a former Red Bird, got off to a rocky start. Musial tagged him for a two-run homer in the first inning. The blow was the Card star's 22nd.

Lefty Howie Pollet blanked the Dodgers over the first three innings, but in the fourth the Dodgers came to life and solved him for two runs. In the fifth, Carl Furillo doubled home Pee Wee Reese with the run that gave the Brooks a 3-2 lead.

The Cards quieted the crowd in the sixth, as Enos Slaughter, the other Dodger tormentor, singled home Nippy Jones to tie the score at 3-3.

Roe tightened up and held the Cards hitless the rest of the way, but not so Pollet. The 16-game winner gave up the winning run in the eighth inning with one out, yielding consecutive doubles to Roy Campanella and Duke Snider. The victory was Roe's tenth compared to four defeats.

Contenders Upset
Musial and Slaughter teamed to put the Cards to victory in the opener. Musial laced out a homer and single and Slaughter contributed a triple, double and single to the Cards' eight-hit attack.

Meanwhile, all three pennant contenders in the American league were defeated. The league-leading New York Yankees were thrashed, 8-4, by the Tigers in a day game at Detroit. The run-recup Red Sox were upended by the seventh place Browns, 5-4, in a night game at St. Louis. The third place Cleveland Indians bowed, 4-2, to the tail-end Washington Senators under the lights in Cleveland.

The Boston Braves protected their one-game third-place margin over the Philadelphia Phillies in the National loop, defeating the Pittsburgh Pirates, 5-2, while the Reds edged the Cincinnati Reds, 4-3 in 13 innings.
Johnny Sain posted his tenth triumph and the Braves' fourth straight as he checked the Pirates on six safeties.

Cubs Slip Through To 7-5 Win Over Giants

New York, Aug. 24 (AP)—The Chicago Cubs, after building up a 7-0 lead on the Giants, barely skinned through with a 7-5 victory over the New Yorkers yesterday. The Giants rallied for five runs in the ninth and had the bases loaded with two out, Bobby Thomson hit into a force play to end the uprising.

18-Year-Old English Schooboy Swims The Channel In 23 Hours

Dover, England, Aug. 24 (AP)—Philip Mickman, 18, conquered the tricky waters of the English channel today after two previous unsuccessful tries. The plucky Yorkshire schoolboy, who swam the gruelling distance in 23 hours and 48 minutes, was the first to make it this year.

Mickman swam the last few miles in darkness and drizzling rain. He waded ashore at Kingsdown, seven miles northeast of Dover, at 5:33 a. m. British Summer Time (11:33 p. m. EST, Tuesday), his associates said.
Meanwhile, Cuban Swimmer Jose Cortinas plunged into the water at Cap Gris Nez, France, at 5:25 a. m. (12:25 a. m. EST) today for his second channel attempt this month.

After reaching shore at Kingsdown, Mickman boarded the boat that accompanied him on the swim and returned to Dover.

Smiling broadly, the chunky schoolboy waded up the beach at Dover wrapped in a huge blanket. Shirley May Grace, Somerset, Mass., high school girl, who hopes to make the channel swim this

Hal Tames Yankees For Fourth Time As Tiges Triumph, 8-4

Detroit, Aug. 24 (AP)—If the New York Yankees don't win the American league pennant, they can blame a large portion of their ill-luck on Hal Newhouse of the Detroit Tigers.
The tall left-hander beat them for the fourth time this season yesterday as he scattered 10 hits and posted an 8-4 decision over Allie Reynolds. It gave him a 4-2 record against the New Yorkers this year.

Newhouse was aided by some healthy clouting by the Tigers who slammed out three home runs. They included Vic Wertz's No. 15, Pat Mullin's ninth and Eddie Lake's first of the campaign.

Heartened by the Tiger hitting, Manager Red Rolfe sent young Art Houtteman (10-7) against the Yankees' Tommy Byrne (10-6) in the finale of the two game series today.

Anxious Moments
Rolfe had some anxious moments in the early innings of yesterday's game as the Yankees climbed all over Newhouse for a

season, was among the first to congratulate Mickman.
Her father, Walter J. France, who was aboard the boat which accompanied Mickman across the channel, was full of praise for the youth.
"It was the luckiest piece of swimming I have ever seen," France declared. "We learned a lot from it."

Shirley May has delayed her attempt to make the swim until the first week in September.
Mickman's father said the swim was "the story of a boy who wouldn't give up."

"Conditions were ideal, except the tide was so strong," he said. At 10 o'clock last night we were a few miles off Folkestone, but then Phil was swept up the channel until he was off Deal.

"At midnight we thought Phil didn't have a chance because of the strong tide. We advised him to give up, but he refused, so there was nothing we could do about it. He insisted on continuing. It took him another five hours to swim to shore."

You've heard about the man with the tough row to hoe! Step right up and shake hands with James L. Rouman, new head football coach at Escanaba high school.

The Eskymos are virtually starting from scratch this season, having lost 20 lettermen via the sheepskin route, and Rouman is faced with the task of building a reputable team with only a handful of tried and true talent.

Of six-lettermen returning, only two are regulars from last year's team, the unit that won seven of eight games by topheavy scores and lost only the 13-12 game to Menominee.

Many Stars Missing
The entire first string backfield of Herb Nicholson, Don Carlson, Dick Pryal and Howie Perron is gone and take a look at these capable linemen who are among the missing—Gary Abrahamson, end; Jim Erickson and Moose Gustafson, two burly tackles; Dick Johnson, center, and Dick Barron, guard.

But like the fabled man with the row to hoe, Monsieur Rouman intends to hoe it out and do a good job against such competition as Menominee, Marinette, Iron Mountain, Norway, etc. The caliber of competition hasn't changed, you see, but the supply of talent has been modified somewhat.

These things can fool you, however. And as Coach Jim Rouman opined this morning—

Lots of Spirit
"We've got a big job cut out for us, no doubt about that, but if spirit and sound drilling in fundamentals can do it, we'll do all right. We have lots of spirit, enough that I feel safe in saying it will go a long way toward making up for the general lack of experience."

Seventy five answered Rouman's opening call Aug. 15, and he's working with a workable group of 35 now. Juniors and seniors who have not yet reported are informed that they must do so without further delay. The ball must be rolling before school opens Tuesday, Sept. 6. It is not planned to deal with prima donnas, Rouman said.

Thus far, Rouman has been engaged in a one-man job of shaping the destiny of the 1949 Eskymo football team. Steve Baltic, who will head the reserve squad, is on a short vacation in L'Anse after spending the summer in charge of the Ludington park recreation program.

Jim Buelow, of Comstock, Wis., who has been signed as assistant football coach and math instructor at Escanaba high school, arrived yesterday, however, and will go right to work today.

Season's Schedule
Six lettermen back in the fold this season are Dick Danielson, quarterback; Tom Nault, center; Jim Prokos, end; Alf Nelson, tackle; Pat Farrell, converted to a back from end, and Jim Chapkeis, guard. Of this sextet, only Farrell and Chapkeis were regulars on the near-championship team of last season. Another griddier sure to see plenty of work this year is Gerry Bink, the sophomore (now a junior) who tore up the Gladstone gridiron last season.

The Eskymos open at Sault Ste. Marie in a night game Sept. 9 and close against Gladstone here Oct. 29. Here's the season's slate (clip it out for future reference):
Friday night, Sept. 9—at Sault Ste. Marie
Saturday afternoon, Sept. 17—Ironwood, here
Saturday afternoon, Sept. 24—Norway, here
Saturday afternoon, Oct. 1—Menominee, here
Friday night, Oct. 7—at Kingsford
Saturday afternoon, Oct. 15—at Iron Mountain
Saturday night, Oct. 22—at Marinette
Saturday afternoon, Oct. 29—Gladstone, here.

Semifinal matches were to be played late this morning, and the finals were slated for late this afternoon.

Sailing Star Seeks 3rd Straight Victory
Chicago, Aug. 24 (AP)—Lowell North, 19-year-old sailing sensation from San Diego, Calif., goes after his third straight victory in the international star class yachting series at Belmont Harbor today.

In his home-made North Star II with one set of sails and 19-year-old Jim Hill as his "crew," North whipped twice some of the world's most seasoned pilots of the swift 23-foot star craft.

Gladstone Women's Golf In Semifinals
Gladstone, Aug. 24 —Semifinalists in the annual Gladstone Golf club women's tournament today were Agnes Erickson, defending champion, who was to oppose Josey Dehlin, and Alice Dehlin, who was slated to meet Dorothy Couler. Finals will be held tomorrow.

MEETING SATURDAY
There will be a meeting of the City Bowling league, which bowls on Monday nights, at the Arcade Alley at 8 Saturday night. Every-one interested in this league is urged to attend.

"It Seems To Me"

BY JIM WARD

Off the cuff: Ben Kleiman, Bark River baseball star, became a father during the third inning of Bark River's Tri-County game last Sunday afternoon . . . And they didn't even tell him until after the game . . . Kleiman is a pitcher . . . Remember that scene in "The Stratton Story" when Monte Stratton (Jimmy Stewart) was informed that he had just become a father . . . He blew sky-high and tossed the ball right over the catcher's head and into the backstop.

Mrs. Kleiman, by the way, is the former Rosemary Barron, of Escanaba . . . Augie Lundgaard, uncrowned mayor without portfolio of the bustling little metropolis of Cornell, recently fired a red-hot 44, his lowest score of the summer by three strokes and the best round he has ever had in many happy years of golfing . . . A few weeks ago, Augie was just as happy about a 47 which beat his previous low of 49 . . . The next thing you know he'll be looking around for some of Don Feller's shekels.

En route home from Camp Grayling we stopped off for a minute or two at Blaney Park and had a chat with Ed Earle . . . Visited the pro shop to see Spence Pohman, who also recently became a father, but he was out on the course . . . The course looked to be in fine shape for the U. P. Open in September.

A big benefit game is being planned for Napoleon "Polly" Belanger, Bark River utility man and general No. 1 booster and handy man, who was hit by a train a week ago and is lying seriously injured in St. Francis hospital . . . Leo Knauf says the Bark River-Perronville game on Labor Day will be Polly's game exclusively . . . Napoleon is one of the most likeable and most helpful fellows on the club . . . It is a fact that he hasn't lost a Bark River football in 20 years and he's always right there to help out in any way whatsoever.

We're waiting for official word from Commissioner Ed "Bud" Gibbs of the Bay de Noc wheel anent that Garden-Fayette dispute last Sunday . . . Fayette reports the game as a 7-7 tie when Garden walked off the field after the seventh inning . . . Garden reports the game a 12-8 Garden win at the end of the eighth . . . Ralph Thibault, of Escanaba, who "umped" the game substantiates the latter version.

Among those grooming their games for the U. P. senior golf tournament here Saturday are Max Council, who is largely responsible for the Escanaba course's excellent condition; Paul Wehlen and C. B. Farrell . . . It's official now . . . George Ruwitch is assistant principal of Escanaba senior high school and in complete charge of its athletic program . . . We have been informed by Edward E. Edick, principal, to address all our communications pertaining to the school's athletic program to Mr. Ruwitch.

An interesting thing about golf is that often you can trace the turning point of a match to one particular incident or one particular stroke . . . Perhaps the particular incident that set the tempo for Mrs. Francis Boyce's upset win over Mrs. William LeMire in the quarter-finals of the Escanaba women's meet yesterday was her birdie putt on No. 3 against Mrs. LeMire's conventional par three.

Upsets Prevail In Escanaba Women's Golf Tournament

It was a day of upsets in the annual Escanaba Golf club women's golf tournament yesterday—some mild and some not so mild.

The tournament medalist, Mrs. Jean Smith, was eliminated in the quarter-finals by Mrs. Emerson Harvey, 2-1, and another favorite, Mrs. William LeMire, was ousted by Mrs. Francis Boyce, a comparative newcomer to tournament golf, by the margin of one up.

Mrs. Paul Wohlen defeated Mrs. K. F. Harrington, 7 and 5, and Mrs. Don LeMire turned back the championship bid of Mrs. James Rouman, 3 and 2.

In the championship consolation, Mrs. T. D. Vinette defeated Mrs. Richard Knop, 1 up; Mrs. James Fitzharris defeated Mrs. Joe Poffenberger, 3 and 2; Mrs. Don Boyce won over Mrs. Clara Stevens, one up, and Mrs. Robert Owen downed Mrs. William Call, 3 and 2.

Semifinal matches were to be played late this morning, and the finals were slated for late this afternoon.

City Girls' Softball Tourney To Be Held At Memorial Sunday

The Escanaba girls' softball tournament will be held at Memorial field Sunday afternoon, beginning at 1.

Delta Hardware and the Married Women will play at 1, and Danforth 4-H will tangle with Escanaba Glove at 2:15. The winners will play in the championship finals at 4.

In the last league game of the season at Ludington last night, Danforth defeated the Married Women, 15-10.

Coleman Hits Homer As A's Nip Chisox, 4-2

Chicago, Aug. 24 (AP)—Pitcher Joe Coleman hit his first major league home run as Philadelphia defeated the Chicago White Sox, 4-2, before 14,559 persons last night. Later Coleman pulled a muscle in his right shoulder and Charley Harris and Lou Brissie took turns saving his No. 12 victory.

Detroit Lions Whip Bulldogs

Enke, Dudley Star In Exhibition

Hershey, Pa., Aug. 24. (AP)—Quarterback Fred Enke engineered a pair of touchdowns to lead the Detroit Lions to a 21 to 10 victory over the New York Bulldogs in an exhibition game here last night.

A crowd of 12,984 watched half-back Bill Dudley count twice, once on a pass from Enke who had first opened the scoring by sneaking over from the one yard line, Dudley kicked three extra points.

The Detroit Lions of the National Football league today traded center Mervin Pregulman to the New York Bulldogs for tackles John Treadaway and John Prehlik. The Lions acquired Pregulman, former Michigan star, from Green Bay two years ago.

After tackle George Heekers, a 265 pounder, intercepted Bob Demoss' pass to advance the ball 47 yards in the first quarter, Enke dropped back and flipped a 29 yard pass to Johnnie Greene. Three plays later, Enke sneaked over from the one.

New York took a 10 to 7 lead in the second period. Nick Scollard booted a 20-yard field goal after which Bobby Layne, throwing with abandon, moved the Bulldogs to the four from which Phil Slosburg took over.

Enke's passing regained the lead for keeps in the third. He completed aerials to Joe Margucci and to Greene, and then finished by tossing 10 yards to Dudley in the end zone.

With less than a minute remaining in the fourth period, fullback Camp Wilson broke off his own left tackle and raced 43 yards to the Bulldogs' four. Two plays later, Dudley went over.

NO GAMES—RAIN
Because of the rain today, all games in the Escanaba Junior-Senior program scheduled for today will be played Friday and Friday's games will be played Tuesday, Jerome Deloria announces.

TOLEDO HAVING FUN
(By The Associated Press)

The Toledo Mud Hens, mired in the American Association cellar 31½ games off the pace, are having a lot of fun going no place. The brood won their fourth decision in five starts Tuesday night with a 14-7 waltz over Kansas City. The Hens slammed 18 hits, including four doubles and three triples, cramping most of the fireworks in a six-run eighth inning.

GOOD WILL AMBASSADOR — Dr. C. W. Bressler-Pettis, of Kissimmee, Florida, visited in Escanaba this week with his gaily decorated automobile, proclaiming the virtues of the Lions International service organization. He was accompanied to Escanaba by his wife, enroute from the Lions convention at New York to Madison, Wisconsin, by way of Canada. Dr. Bressler-Pettis is shown here with the president of the Escanaba Lions club, Dr. M. H. Garrard.

Jr. Dr. Garrard is pointing to a sign painted by Lion Harold Meiers of Escanaba, which reads, "Escanaba, Mich., Land of the Red Buck". A similar sign painted on the other side of the car reads, "Escanaba, Michigan, The Walleye Capital". The papier mache bust is a portrait of Melvin Jones, founder and secretary-general of Lions International. The full size lion on the front of the car, of course, symbolizes the service club.

'Stique Woman Is Injured

Car Skids, Rolls Over On U. S. 41

Mrs. Douglas Howard of Manistique suffered severe multiple lacerations of the left leg at 9:10 p.m. Tuesday night when a car she was driving went off the pavement, then skidded and rolled over three times, after she brought the car back up on the pavement. The accident occurred about two and a half miles north of Rapid River on U.S. 41.

Douglas Howard and their two children, LeRoy, 3½, and Betty, 1½, were in the car at the time of the accident.

Mrs. Howard was treated by a Gladstone physician and then removed to St. Francis hospital for treatment of a badly torn leg. Her son, LeRoy, suffered a cut lip and bruises.

Rules Revised For Traffic On Friday Evening

Revised regulations governing traffic at the intersection of Ludington street and 11th street on Friday afternoons and evenings have been announced by the Escanaba police department.

Ludington street traffic will not be permitted to make left turns to either S. 11th or N. 11th street, but right turns will be allowed with the green light. Motorists desiring to turn right, however, will be required to move into the inside lane of traffic before turning.

Eleventh street traffic will be permitted to make either left or right turns with the green light.

In all cases, however, motorists turning at the intersection will be required to give right of way to pedestrians walking across the walk with the green light.

A traffic officer will be on duty Friday night until nine o'clock at the intersection, but no officer will be assigned to handle the Friday afternoon traffic.

In the past no left or right turns were allowed at the intersection on Friday afternoons or evenings.

Safe Landing Ends Search For Detroit Plane In Peninsula

Detroit, Mich., Aug. 24. (AP)—A safe landing here late yesterday ended an air-sea search for a small four-seater plane carrying a Detroit, his wife, and father-in-law.

The pilot, Roy Piddington, a patrolman in the Detroit police department's accident prevention bureau, took off from Duluth, Minn., Monday night on a return trip from Canada.

When he did not follow his flight plans and land at Mackinac Island, life boat stations on Lake Michigan and Lake Huron were alerted and all available planes from the U. S. Coast Guard station here took part in the search.

Lt. Theodore McWilliams, acting commander of the Coast Guard station, said the Piddington party had stopped to visit friends at Houghton Lake and then gone on to Detroit.

Kluxers Owe Taxes

Atlanta, Aug. 24. (AP)—Still floundering from the loss of its imperial wizard, the Association of Georgia Klans today faced a new threat to its power—the federal government.

A \$9332 tax lien was slapped on the Klan yesterday in an effort to collect alleged unpaid federal income taxes for 1946, 1947, and 1948.

Pays Fine For Reckless Driving

George Pepin, Route One, Escanaba, was fined \$25 and costs in justice court this morning on a plea of guilty to reckless driving. He was arrested after the car that he was driving struck an automobile driven by Frank Conrke at the intersection of 18th street and Ludington yesterday afternoon.

Defense Treaty Links 12 Nations To Fight Russia

(Continued from Page One)

under its general direction will rest responsibility for developing a grand strategic plan for the defense of the Western nations against Russia.

The defensive area which the plan must cover ranges from the western tip of Alaska and the western coast of North America to the eastern borders of Norway in the north to Italy in the south of Europe.

The pact, which was designed as the keystone for a new area of greater security in western Europe, comes into force at a time when both Russia and the western powers are caught up in difficulties which may vitally affect the whole security problem as the treaty bears up on it.

In the east, the increasingly noisy row between the Soviet Union and Yugoslavia is creating international tensions. These conceivably could lead to more violent action than any yet taken between Marshal Tito's government and the Russian dominated combine of Communist states arrayed against it.

To the extent that this weakens Russia's condition in eastern Europe, it is regarded by western leaders as a gain in strength for the west. To the extent that it raises fears of a Balkan war it is considered to create new uncertainties in the minds of Europeans generally.

On the western side, American and British officials at the moment are deeply concerned about Britain's economic difficulties.

Manslaughter Charge Faces Driver In Death Of Margaret Mitchell

Atlanta, Aug. 24. (AP)—An involuntary manslaughter indictment was returned yesterday against the taxi driver whose car struck down and fatally injured Margaret Mitchell, author of "Gone With The Wind."

Conviction on that charge would mean one to three years in prison for Hugh D. Gravit, the 29-year-old driver.

The taxi driver was off duty and in his own car when he struck Miss Mitchell. The indictment charged he "did unlawfully and without any intention to do so kill Mrs. John Marsh while he was engaged in the commission of an unlawful act."

It also charged he was exceeding the 25 mile per hour speed limit, was driving under the influence of liquor, failed to yield the right of way to Miss Mitchell and was driving on the left side of the street.

News Cheering To Gen. Chiang

Communists Defeated In Central China

By SPENCER MOOSA

Canton, Aug. 24. (AP)—The Nationalists presented Chiang Kai-shek with reports of more successes in Central China today. The generalissimo named a new army chief and started an inspection tour of the interior.

Gen. Pai Chung-hsi, commander in Central China, announced his counteroffensive had rolled on to two new victories over the Communists on both eastern and western flanks of Hengyang. This is the Hunan province defense bastion 265 miles north of Canton on the Canton-Hankow railway.

Yunhsien, 50 miles east-northeast of Hengyang, was recaptured from the Reds, he said, by Nationalist forces which had struck back from Leliang, rail town 230 miles north of Canton. On the way they also retook Anjen, almost midway between Leliang and Yunhsien.

On Pui's western flank, the Reds were reported thrown out of Lantien, 70 miles northwest of Hengyang.

The victories put the Nationalists in a better position in Hunan than at any time since they lost the provincial capital of Changsha early this month. The good news arrived a day after Chiang flew into this refugee capital from Formosa.

Obituary

HENRY STANCHINA

Funeral services for Henry Stanchina were held at 10 a. m., today from Alto funeral home with the Rev. Clifford Nadeau, pastor of St. Ann church, officiating, and burial was made in Holy Cross cemetery. The funeral mass will be sung at 8 a. m., Saturday at St. Ann chapel.

pallbearers were Wilfred Dupont, Leo Gregory, Harold and Pedro Villeneuve, Wayne Schultz and Henry Mayville.

Military rites were conducted by members of Escanaba veterans organizations. Color bearers were Nelson Sorault, and William Garbett; color guards were George Harvey, Jr., and William Butler; and the firing squad was comprised of Ed J. St. Antoine, Charles Harvey, John Cleary, Joe I. Perow, Jim Kennedy and Gerald Cleary. Archie Wood was chaplain for the rites and John Wood was bugler. The D. A. V. auxiliary was represented by Mrs. Nelson Sorault and Mrs. William Garbett.

Out-of-town persons at the services included Henry Stanchina and Edward and Junior Stanchina of Norway, Mr. and Mrs. Emil Stanchina, Mrs. David Morin and Mrs. Roman Rakotz of Norway.

Vigilantes Hunt Vice Overlords At Los Angeles

Los Angeles, Aug. 24. (AP)—Mickey (The Mouse) Cohen will have more than the cops to contend with soon.

A new vigilantes committee yesterday charged: "Mickey Cohen is merely a 'Mickey Mouse' front man for the real vice overlords. We are determined to find out who these vice lords are and name them publicly."

Then it announced it would immediately open an investigation bureau to sift information from private citizens on crime and vice conditions in Los Angeles, and turn the facts over to state and federal authorities.

Cohen, who has been willing enough in the past to talk with newsmen, yesterday declined to talk with District Attorney William Simpson. Simpson had said he wanted to ask the little gambler about reports that Cohen had paid \$20,000 for a copy of the transcript which police, using hidden microphones, made of conversations in his home.

Most nails today are made of steel.

Iron Mountain Man Killed Under Train

Peter P. Zable, 66, of Iron Mountain, was instantly killed at three o'clock this morning when a Chicago, Milwaukee and St. Paul train ran over his body at Channing. The man was decapitated.

State police theorized that Zable was attempting to climb on the train and that he slipped and fell under the wheels. He resided at the American Inn in Iron Mountain.

He was born in Lithuania March 31, 1883.

Briefly Told

Women's Golf Semifinals—Mrs. Emerson Harvey defeated Mrs. Paul Wohlen, 3 and 2, and Mrs. Don LeMire defeated Mrs. Francis Boyce, 5 and 4, in the semifinals of the annual women's tournament at the Escanaba Golf club early this afternoon. Mrs. Harvey and Mrs. LeMire were to play off for the championship today.

Hope Gone For Boy, 3, Missing Four Days In Minnesota Swamp

McGregor, Minn., Aug. 24. (AP)—Hope faded fast today as 300 Minnesota National Guardsmen moved into the eleventh hour of their search for three year old Larry Coleman, missing four days in this swampy northern forestland.

Lt. Col. William Johnson, guard commander, said that if no trace of the lad is uncovered today, "he will never be found."

Larry was swallowed up in the wilderness Saturday while hunting pine cones on his grandparents' farm with an older brother and sister. Guardsmen and several hundred civilian volunteers have concentrated their efforts in a five mile area around the farm.

Col. Johnson pointed out that the area is virtually one huge swamp, with only patches of land scattered among hundreds of small lakes and potholes.

Hurricanes Near Atlantic Coast

Miami, Fla., Aug. 24. (AP)—Two tropical hurricanes were near the Atlantic today—and the older was cooking its fist for a possible close brush against the North Carolina Capes.

The Weather Bureau here said the older and more severe storm was about 125 miles south-southwest of Cape Hatteras, N. C., at 5 a. m. (EST). Hurricane warnings were ordered hoisted along a 45-mile stretch of the Upper Carolina Capes from Manteo to Cape lookout.

The second disturbance grew to hurricane intensity last night about 100 miles northeast of St. Thomas in the Virgin Islands.

The storm off the Carolina coast was reported moving northward about 15 miles an hour and was expected to continue this pace well into the day. Forecasters said its path probably would curve slowly to the north-northeast.

Slayer Of Texas Farmer And Wife Hunted In Woods

Bridgeport, Tex., Aug. 24. (AP)—An armed posse today poked through dense woods and brush southwest of here for the accused slayer of a farmer and his wife. Night slowed the search and Wise County Sheriff Ray Nobles said "its like looking for a needle in a haystack."

J. E. Mash, about 55, was found in a field outside his home yesterday, a bullet wound through the neck and another through the chest. His wife, 40, was found in the back yard, shot four times through the chest.

Charges were being prepared against W. L. Arvine, 39, former Bridgeport law enforcement officer. A charge he raped Mrs. Mash was filed against him in Justice of the Peace C. M. Quisenberry's court in Decatur, county seat of Wise county, Aug. 6.
